### Important Statement Of General Application

This publication explains the rules and conditions of service that apply on shipments by the LTL Division of TForce Freight, and that show this document as a governing publication. Exceptions to any of the Items in this publication will be noted in agreements that apply for an individual customer. When TForce Freight acts as a motor carrier, it is acting pursuant to its motor carrier authority #MC 109533 Sub 146 (as to common carrier authority) and #MC 109533 (Sub-No. 149-P) (as to contract carrier authority); when TForce Freight acts as a broker, it is acting pursuant to its broker authority #MC 109533 SUB 105 B. In the event TForce Freight is acting as a motor carrier and, in order to meet operational goals, finds it necessary to broker any shipment(s), it will then be doing so pursuant to its brokerage authority; provided, however, TForce Freight will remain liable for any freight loss or damage claims, as set forth in the contract documents and/or Rules Tariff applicable to such shipment(s).

In an effort to provide its customers with quality service at competitive rates, certain commodities may be offered to be shipped at less than full value and TForce Freight encourages shippers to review this publication, as some Items may be subject to limitations of liability, released values or other options specific to a shipment or a commodity. All shippers are further encouraged to evaluate their cargo insurance program so they may tender their goods at the lowest possible overall cost while still being insured for a value consistent with their requirements.

- Note 1 All shipments will be subject to a fuel surcharge based on a weekly fuel price report, published on the website of the US Energy Information Administration (EIA) for the US On-Highway Diesel Fuel Price. The report may be received directly from the EIA or by calling (202) 586-6966. Any surcharge adjustments to the US On-Highway Diesel Fuel Price made on Monday will take effect the following Wednesday. If Monday falls on a federal Holiday, the index next published will be used to determine the applicable fuel surcharges. The website is [www.eia.gov/petroleum/gasdiesel](http://www.eia.gov/petroleum/gasdiesel).
- Note 2 For each one-cent (\$.01) increase over 361 cents in the EIA Diesel Fuel Price, the fuel surcharge will increase by an additional 0.1% on LTL, volume or Capacity Load shipments. For each two-cent (\$.02) decrease below 361 cents in the EIA Diesel Fuel Price, the fuel surcharge will decrease by 0.1% on LTL, volume or Capacity Load shipments, subject to a minimum fuel adjustment of \$2.00. When the EIA Diesel Fuel Price falls below 115 cents, the fuel surcharge will not apply.
- Note 3 Expedited shipments (as defined in Item 822) moving "out-of-network" shall be subject to fuel surcharge in accordance with the amounts charged to Carrier by its Agent, Interline Carrier, other mode of transportation, or sub-contractor, unless the fuel surcharge has been previously negotiated on Expedited "out-of-network" shipments between the parties in tariffs, contracts, or other agreed upon pricing provisions.

**Item 100 General Application**

1. This publication applies to the Less-Than-Truckload (LTL) Division of TForce Freight (identified herein as "Carrier" or "TForce Freight"). It explains Carrier's services as well as the rules and conditions of service that apply on shipments moving under other publications, pricing agreements, or in customer contracts which show this document as a governing publication. Where reference is made, in other publications, pricing agreements or contracts, to Carrier's current rules or UPGF 102 Series rules, this rules publication shall be used to determine all rules, fuel surcharges, accessorial charges and special service fees. Where reference is made, in other publications, pricing agreements or contracts to OVNT 102 Series rules or MTRG 100 Series rules, this rules publication shall be used to determine all rules, fuel surcharges, accessorial charges and special service fees. Any shipment made using a PRO number generated by Carrier is subject to the rates, classifications, limitations and rules that have been established by Carrier and are in effect as of the date of shipment, including without limitation this rules tariff, except to the extent otherwise set forth in customer specific pricing or contracts that apply for individual customers.
2. Exceptions to any of the Items in this publication will be noted in specific pricing agreements, statements of agreed pricing or contracts that apply for individual customers. Carrier, in accordance with its obligations under Title 49 USC, Article 13710, shall provide to the customer, on its request, this publication or any other written or electronic copy of the rate, classification, rules, and practices upon which any rate applicable to its shipment or agreed to between the customer and Carrier is based. In addition, the most current version of this publication appears on Carrier's website ([www.TForceFreight.com](http://www.TForceFreight.com)), and may be accessed at any time, by any party without cost.
3. In an effort to provide its customers with quality service and competitive rates, certain commodities are shipped at less than full value. Carrier encourages its customers to review this publication as some goods may be subject to limitations of liability, released values or other requirements that may relate directly to your shipment. (Therefore, all customers are further encouraged to evaluate their personal or corporate cargo insurance policies so they may ship their goods at the lowest possible rate while still being protected for full value.)
4. Unless otherwise provided, when provisions of this tariff are in conflict with those published in individual contracts and / or tariffs, such individual contract and / or tariff provisions, to the extent of their application, will apply. Where a rule published in this tariff covers the same rule published in the NMFC, such rule published herein, to the extent of its application, will apply in lieu of the rule published in the NMFC.
5. When TForce Freight acts as a motor carrier, it is acting pursuant to its motor carrier authority #MC 109533 Sub 146 (as to common carrier authority) and #MC 109533 Sub-No. 149-P (as to contract carrier authority); when TForce Freight acts as a broker, it is acting pursuant to its broker authority #MC 109533 SUB 105 B. In the event TForce Freight is acting as a motor carrier and, in order to meet operational goals, finds it necessary to broker any shipment(s), it will then be doing so pursuant to its brokerage authority; provided, however, TForce Freight will remain liable for any freight loss or damage claims, as set forth in the contract documents and/or rules tariff applicable to such shipment(s).
6. Except as otherwise provided, or otherwise stated on the bill of lading, and unless the customer has agreed to accept responsibility, additional charges for special services which exceed the normal pickup, line haul, and delivery service defined by Item 750, shall be collected from the party requesting or requiring the service irrespective of whether the line haul charges are prepaid or collect. In the event the party requesting or requiring the service does not pay or is unwilling to pay, Carrier reserves the right to assess the charges against the payer of the freight charge or the shipper.
7. Carrier will maintain records to verify the application of charges and will so document on any billing or invoicing to the responsible party.
8. Reissued tariffs, Items or parts of Items will cancel previously issued tariffs, Items or party of Items, or publications referenced thereto. The term "series" implies the most current tariff in effect at time of shipment. Where an Item is suffixed with an alphabet letter, the letter A, cancels the original Item not so suffixed, B cancels A, C cancels B. etc.
9. In the event Carrier receives no shipments rated under the provisions of any statement of agreed pricing, for a period of 120 days, that statement of agreed pricing will be deemed obsolete and subject to cancellation.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

10. All pricing agreements established by Carrier for its customers are subject to periodic general rate increases, unless specifically stated otherwise in a pricing agreement.
11. Section 1 of this tariff provides general application. Section 2 of this tariff applies only on International commerce from or to points in Mexico. Rules, rates and charges shown in Section 2 take precedence over the same rules, rates and charges shown in Section 1 to the extent of the application.
12. Accessorial rates and charges shown in this tariff are not subject to discounts or reductions.
13. Carrier may disclose information of any nature regarding any agreement to its corporate parent, subsidiaries, affiliates and related entities and may disclose information as specifically required by law or for payment and audit purposes.
14. In the event any Item or provision of an Item in this tariff is determined to be invalid by a court or administrative agency order or ruling, or by enactment or amendment of law, such action shall not invalidate the entire tariff, but this tariff shall be construed as if not containing the particular Item or provision held to be invalid and the rights and obligations of shippers, consignees, customers and Carrier shall be construed and enforced accordingly.
15. Except as otherwise provided in agreements referring to this tariff, no shipment will be accepted upon a partially PREPAID or partially COLLECT basis.
16. Shippers, consignees, customers and Third Parties may refer to UPGF 105 series tariff for applicable offshore rates, rules and charges, or call Customer Service at (800) 333-7400. A copy of the tariff is available upon request at no cost.
17. Except as otherwise provided or otherwise stated on the bill of lading and agreed to by Carrier, Carrier agrees to accept, transport and deliver such goods as a customer or shipper may tender with reasonable dispatch. Carrier is not otherwise bound to transport the goods by any particular schedule, by a particular route or in time for any particular event or in any other manner other than with reasonable dispatch.
18. NOTICES: All notices required between Carrier and customer or any other party shall be deemed to be properly served only if reduced to writing and sent by United States mail, certified, return receipt requested, , or by personal delivery. The date of any notice so sent will be deemed to be the date of receipt. If any notice mailed or sent by United States mail or by delivery service is properly addressed with appropriate charges prepaid but is returned because the intended recipient refuses delivery or can no longer be found at the current notice address, such notice shall be deemed effective notice and to be given on the date such delivery is refused or cannot be accomplished.
19. Carrier introduces new services from time to time that would not have been contemplated in a customer agreement that went into effect prior to introduction of the service. Additionally, an existing service provided by Carrier may not be included in a customer agreement for a variety of reasons even though the service was in effect at the time the agreement went into effect. To resolve these situations, Carrier will observe the following rules: Where a customer or other Third Party with an interest in the shipment requests an accessorial service that was in effect at the time the agreement was in effect, the service will be provided and charged for as negotiated between the parties. Where the accessorial service is introduced by Carrier after the effective date of an agreement, then the stated description of the service in this Tariff, including the service charge, will apply. Any service rendered beyond pickup, delivery and line haul that is not provided for in this Tariff will be charged for as negotiated between the customer and Carrier.
20. This tariff, together with any documents referenced herein, and the Source Document (as defined in Item 812) for each shipment comprise the complete and exclusive agreement of the parties, including any of Carrier's affiliates, except as modified by any existing or future written agreement between the parties applicable to such shipment, and may not be contradicted, modified, or supplemented by any oral agreement or by any implied-by-law covenant.
21. For any language in the parties' agreement that gives Carrier any discretion, judgment, or other right, Carrier's exercise of such discretion, judgment, or other right is not limited in any way whatsoever – even if the specific language does not so specify. Carrier has the sole and unilateral authority to choose how to exercise its discretion, judgment, or any other right and may do so for any reason it chooses, without limitation. Carrier is not bound by any previous exercise of its discretion, judgment, or any other right. The provisions of this Item do not apply when no pricing provisions are applicable or on shipments moving collect to Alaska, Guam, Hawaii, Mexico, Puerto Rico, or U.S. Virgin Islands..

**Item 110            TForce Freight Bill of Lading – Terms and Conditions**

This Item is a reproduction of the terms and conditions that are included on the TForce Freight bill of lading (form number OTC-199). They are included here for the convenience of shippers and consignees and are applicable to all statements of agreed pricing and other customer agreements where this rules tariff, the Uniform Bill of Lading or the TForce Freight Bill of Lading is identified as a governing publication.

**Section 1:            Carrier Liability**

Note 1 Where the rate and carrier's liability is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property as follows: "The agreed or declared value of the property is specifically stated by the shipper to be not exceeding \_\_\_\_\_ per \_\_\_\_\_."

Note 2 CARRIER LIABILITY for loss or damage will be the lesser of (1) the actual invoice value of the commodities or article(s) lost, damaged or destroyed; or (2) the amount determined from applicable limited liability provisions of the NMFC; or (3) the limits provided by contract, if applicable; or (4) carrier's governing tariffs, unless Excess Declared Value Coverage\* is specifically requested along with the amount of coverage needed in writing on the bill of lading at the time of shipment and applicable charges are paid. **Carrier's UPGF 102 series rules tariff is incorporated herein by this reference; please carefully review the tariff to determine the applicable limits of liability for the type of articles being shipped.**

\*Certain articles are subject to a limited declared value, with a choice of rates under the tariff; please review the tariff provisions before stating a value. Shipper requests EXCESS DECLARED VALUE COVERAGE IN THE AMOUNT OF \$\_\_\_\_\_.

Note 3 Commodities requiring special or additional care or attention in handling or stowing must be so marked and packaged as to ensure safe transportation with ordinary care. See Sec. 2 (e) of NMFC Item 360.

**TForce Freight shall have no liability or responsibility whatsoever in connection with this bill of lading if the shipper did not tender the shipment to TForce Freight or its Agent.**

**Section 2:            Shipper Certification**

This is to certify that the above named materials are properly classified, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

**Section 3:            Shipment Received**

Received, subject to individually determined rates or contracts that have been agreed upon in writing between the carrier and shipper, if applicable, otherwise to the rates, classifications and rules that have been established by the carrier and are available to the shipper on request, the property described above, in apparent good order, except as noted (contents and condition of contents of packages unknown) marked, consigned, and destined as shown above, which said carrier agrees to carry to destination, if on its route, or otherwise to deliver to another carrier on the route to destination. Every service to be performed hereunder shall be subject to all conditions not prohibited by law, whether printed or written, herein contained, including conditions on the back hereof, which are hereby agreed to by the shipper and accepted for itself and its assigns. Where a third party bill to or broker exists, carrier holds both the shipper and consignee liable for freight charges.

**Section 4:            Terms and Conditions**

**Sec. 1.** (a) The carrier shown as transporting the property described in this bill of lading shall be liable at common law for any loss or damage to the shipment, except as provided herein.

(b) No carrier shall be liable for any loss or damage to a shipment or for any delay caused by an Act of God, the public enemy, the authority of law, the act or default of the shipper, riots or strikes, or any related causes. Except in the case of negligence of the carrier, the carrier shall not be liable for loss, damage or delay which results: when the property is stopped and held in transit upon request of the shipper, owner or party entitled to make such request; or from faulty or impassable

highway, or by lack of capacity of a highway bridge or ferry; or from a defect or vice in the property. The burden to prove negligence is on the shipper.

**Sec. 2.** Unless arranged or agreed to in writing or electronically, prior to shipment, carrier is not bound to deliver a shipment by a particular schedule or in time for a particular market, but will transport the shipment in the regular course of its providing transportation services. In the case of physical necessity while in transit, carrier may forward a shipment via another carrier.

**Sec. 3.** (a) As a condition precedent to recovery, claims must be filed electronically or in writing with the receiving or delivering carrier, or carrier issuing the bill of lading, or carrier on the line of which the alleged loss or damage occurred. When claims are not filed or a civil action is not filed within the time limits set forth below, the carrier shall not be liable and such claims will not be paid.

(b) Claims for loss or damage must be filed with the carrier not more than nine (9) months from the date of delivery (or, in the case of export traffic, not more than nine (9) months after delivery at the port of export, or in the case of import traffic, not more than nine (9) months after pickup at the place of tender). Claims for loss must be filed with the carrier not more than nine (9) months from the date of the bill of lading.

(c) A civil action for loss or damage must be filed not more than two (2) years after the date the carrier has given electronic or written notice that it has disallowed all or any part of specified in the notice.

(d) If the applicable freight charges have been paid to the carrier, the carrier receiving the benefit of such insurance will reimburse the Claimant for the premium paid on the insurance policy or contract for the involved shipment.

**Sec. 4.** (a) If the consignee refuses the shipment tendered for delivery by carrier or if carrier is unable to deliver the shipment, because of fault or mistake of the consignor or consignee, the carrier's liability shall then become that of a warehouseman. Carrier shall promptly attempt to provide notice, by telephonic or electronic communication as provided on the face of the bill of lading, if so indicated, to the shipper or the party, if any, designated to receive notice on this bill of lading. Storage charges, based on carrier's tariff, shall start no sooner than the next business day following the attempted notification. Storage may be, at the carrier's option, in any location that provides reasonable protection against loss or damage. The carrier may place the shipment in public storage at the owner's expense and without liability to the carrier.

(b) If the carrier does not receive disposition instructions within 48 hours of the time of carrier's attempted first notification, carrier will issue a second and final confirmed notification by telephonic or electronic communication. Such notice shall advise that if carrier does not receive disposition instructions within ten (10) days of that notification, carrier has the right to offer the shipment for sale, and carrier may sell the property under such circumstances as may be authorized by law. The amount received from the sale will be applied first to the carrier's invoice for transportation, storage and other lawful charges, including those incurred by the carrier in selling the goods. The owner will be responsible for the balance of any charges not covered by the sale of the goods. If there is a balance remaining, after all charges and expenses are paid, such balance will be paid to the owner of the property sold, subject to a claim and proof of ownership.

(c) When perishable goods cannot be delivered and disposition instructions are not given within a reasonable time, the carrier may dispose of the property in a manner that the carrier deems best serves its disposition.

(d) When a carrier is directed by consignee or consignor to unload or deliver property at a destination where consignor, consignee, or the agent of either, is not regularly located, after unloading or delivery the risk of loss or damage is not be that of the carrier, but is assumed by the consignor or consignee.

**Sec. 5.** (a) Where a lower value than the actual value of the property has been stated in writing by the shipper on the bill of lading, or is established in the carrier's tariff upon which the rate to be charged is based, such lower value shall be the maximum amount recoverable for loss or damage.

(b) No carrier hereunder will carry or be liable in any way for any documents, coin money, or for any articles of extraordinary value not specifically rated in the published classification or tariffs unless a special agreement to do so and a stipulated value of the articles are endorsed on this bill of lading.

**Sec. 6.** Every party, whether principal or agent, who ships explosives or dangerous goods, without previous full written disclosure to the carrier of their nature, shall be liable for and indemnify the carrier against all loss or damage caused by such goods. Such goods may be warehoused at owner's risk and expense or destroyed without compensation.

**Sec. 7.** (a) The consignor or consignee shall be liable for the freight and other lawful charges accruing on the shipment, as billed or corrected as specified in 49 U.S.C. §13710, except that collect shipments may move without recourse to the consignor when the consignor so stipulates by signature or endorsement in the space provided on the face of the bill of lading. Nevertheless, the consignor shall remain liable for transportation charges where there has been an erroneous determination of the freight charges assessed, based upon incomplete or incorrect information provided by the consignor.

(b) Notwithstanding the provisions of subsection (a) above, the consignee's liability for payment of additional charges that may be found to be due after delivery shall be as specified by 49 U.S. C. §13706, except that the consignee need not provide the specified written notice to the delivering carrier if the consignee is a for-hire carrier.

(c) Nothing in this bill of lading shall limit the right of the carrier to require the prepayment or guarantee of the charges at the time of shipment or prior to delivery. If the description of articles, including weight or density of shipment, or other information on this bill of lading is found to be incorrect or incomplete, the freight charges must be paid based upon the articles actually shipped.

**Sec. 8.** If this bill of lading is issued on the order of the shipper, or his agent, in exchange or in substitution for another bill of lading, the shipper's signature on the prior bill of lading or in connection with the prior bill of lading as to the statement of value

or otherwise, or as to the election of common law or bill of lading liability shall be considered a part of this bill of lading as fully as if the same were written on or made in connection with this bill of lading.

**Sec. 9.** If all or any part of said property is carried by water over any part of said route, such water carriage shall be performed subject to the terms and provisions and limitations of liability specified by the "Carriage of Goods By Sea Act" and any other pertinent laws applicable to water carriers.

2. When the applicable pricing is subject to rating based solely on density, a density of 7.0 pounds per cubic foot will be utilized for rating. If the base rate tariff or pricing does not contain a density of 7.0 pounds per cubic foot and rate, the rate will be determined by multiplying the otherwise applicable rate or charge by 125%.
3. Each shipment will be subject to the trade show shipment charge of \$200.00, in addition to all other charges (see Note 2):
4. Redelivery of trade show shipments: Where a shipment is tendered for the purpose of going into or out of a trade show, and such delivery cannot be accomplished, through no fault of Carrier, no further tenders will be made except upon request. Before the shipment will be delivered, agreement must be reached that the charge for redelivery (see Item 830) will be collected from the consignee unless payment has been specifically authorized by the shipper.
5. Shipments moving to or from a Trade Show will be accepted on handling units up to 10 feet in the single greatest dimension. Trade Show shipments tendered greater than 10 feet in any single dimension will be subject to prior written approval by Carrier (see Item 780, Part 1A).

Note 1 Freight all kinds (FAK) class exceptions and NMFC class exceptions do not apply.

Note 2 Carrier liability for loss or damage claims of trade show shipments is governed by Item 166 below. (Limits of liability within Item 166 Part 3 shall not apply to shipments moving under the provisions of Item 148.) For shipments where Carrier's involvement is limited to the warehousing of the trade show shipment, with no prior or subsequent transportation by Carrier or its agents, liability for loss or damage will be limited to that of a Warehouseman.

**Item 149 Application of Rates – Canadian Points**

**Part 1 – Indirect Service Points**

Discounts, rates and NMFC class exceptions will not apply on shipments destined to or originating from points in Canada that are not Direct Service Points. For points where direct service is not indicated in the TForce Freight service points file at the time of shipment, shippers must contact TForce Freight Customer Service at 1-800-333-7400 and select option 6 for a spot quote to include all transportation charges to these locations and the available modes of transportation depending on the season of the year and availability of equipment. When a spot quote is not requested for an interline point prior to shipment, Carrier reserves the right to adjust the charges to reflect any additional costs incurred to process the shipment.

**Part 2 – Direct Service Points**

For all other Direct Service Points in Canada, an additional charge may be assessed to areas where access is limited. This charge will be in addition to all other freight charges applicable to the shipment and will be assessed on all shipments destined to or originating from these points.

A listing of the applicable postal codes is shown in Table 149A below. A shipment destined to or originating from a postal code within one of the ranges shown in Table 149A will be assessed the charge corresponding to the rate code shown for that postal code range. A listing of charges by rate code is shown in Table 149B.

**Part 3 – Extended Travel - Remote Access**

When Carrier is requested or required to arrange for a pickup or delivery at an Oil Field, Mine Site, Resort Area, Reserve, or other remote access point (including points accessible only by ferry) within Canada, the following service charge will apply:

\$190.00 per shipment

In addition, any point serviced greater than 15 kilometers from the consignee town center listed on the bill of lading may be assessed an additional pickup or delivery charge of \$8.65 per kilometer beyond the 15 kilometer limit. Application of this Item will supersede any application of Item 755.

**Item 150 Indemnification**

Customer shall indemnify, defend and hold harmless Carrier, its parent corporation and affiliated companies, their officers, directors, agents, sub-contractors, employees, and their successors and assigns from and against any and all claims, demands, losses, damages, expenses (including reasonable attorney's fees, costs and expenses), liabilities, causes of action, enforcement procedures, suits of any kind or nature brought by a governmental agency, or any other, connected with or resulting from injury to or death of any person, injury to property or to natural resources arising out of customer's (or its employees' or agents') negligent acts, omissions, willful misconduct, violation of any local, state, federal or international law or regulation, tendering any prohibited item for shipment, failure to comply with the terms of this tariff, or arising out of or in connection with the design, manufacture, packaging, marketing, use or sale of its goods or services or customer's instructions regarding such goods or services.

**Item 160 Logistics Provider**

This Item applies to Logistics Providers and shall be in addition to all other terms and conditions of this tariff. For purposes of this Item, a Logistics Provider is any person or business entity holding itself out as a broker, freight forwarder, third party logistics provider or agent of a shipper.

**Part 1 – Service**

Subject to reasonable requests, Carrier may transport such merchandise as Logistics Providers may tender to Carrier, excluding any prohibited merchandise or articles described in this rules tariff. Additionally, the services by Carrier shall not include any freight that is destined to have any subsequent movement by any aircraft.

**Part 2 – Representations and Warranties**

Each Logistics Provider represents and warrants each of the following:

- neither it nor its agents will represent its relationship with Carrier to be other than that of independent contractors;
- neither it nor its agents will represent to any third party that Logistics Provider is authorized to bind Carrier or that Logistics Provider is authorized to act on behalf of Carrier.
- it will not tender any goods to Carrier hereunder if such tender would result in a breach of any understanding or agreement between Logistics Provider and any customer or other third party. Specifically, each Logistics Provider represents and warrants that it will not tender any goods to Carrier that it is prohibited from brokering or providing to third parties for transportation.
- in the event any other motor carrier transports all or any portion of a shipment tendered to Carrier, for example, by way of an interline or interchange, it shall be solely responsible for selecting such third party motor carrier.
- it is duly and legally qualified to operate as a broker and or freight forwarder in accordance with applicable law.
- it maintains all insurance coverage as required by applicable law. In the event that any Logistics Provider additionally holds authority from any regulatory agency to operate as a motor carrier, it represents and warrants that all goods tendered to Carrier hereunder shall be tendered pursuant to the Logistics Providers' broker and/or freight forwarder authority.

**Part 3 – Disposition of Claims**

1. The Logistics Provider expressly acknowledges and agrees that Carrier's sole obligation with respect to cargo claims is owed to the Logistics Provider. As between Carrier and the Logistics Provider, the Logistics Provider agrees, represents and warrants that it is solely responsible for any agreement or understanding with respect to cargo liability with regard to any of its customers (for purposes of this Item 160, a "Customer"). The Logistics Provider will indemnify and hold Carrier

harmless from any claim made by any Customer or any third party claiming an interest in the goods tendered to Carrier by the Logistics Provider.

2. The Logistics Provider will forward any safety protocol published for acknowledgement by Carrier by any of its customers pertaining to the Food Safety Modernization Act to Carrier in advance of any shipment subject to that protocol being tendered to Carrier, with sufficient time for Carrier to take appropriate steps to acknowledge receipt of the protocol and provide a response to Logistics Provider confirming or denying the application of the protocol and Carrier's solution to the protocol. Directions regarding a Customer's safety protocol printed only on the bill of lading is insufficient documentation and does not serve as an acknowledgement of the protocol by Carrier, and the directions on the bill of lading will not supersede any safety protocol actually acknowledged by Carrier.
3. Carrier will not be responsible for the cost of cargo loss or damage alleged to have resulted from contamination, adulteration, infestation or concealed damages unless the Claimant can demonstrate by clear and convincing evidence that there has been actual damage, contamination, adulteration, or infestation and it was caused solely by Carrier's negligence or willful misconduct. In such event, Carrier shall only be liable for that portion of the shipment that suffers such actual damage, contamination, adulteration or infestation, and Carrier's liability shall be limited to \$3.00 per pound for the product lost, damaged, adulterated, contaminated or infested. Carrier shall not be liable for loss, damage, adulteration, contamination or infestation in the event of product expiration.

**Part 4 – Refusal of Shipment**

In the event of refusal of a shipment by a consignee or in the event that Carrier, for any reason, is unable to deliver a shipment, Carrier shall notify the Logistics Provider. Carrier shall have reduced liability as a warehouseman for such shipments upon its placement of the shipment in a public warehouse or at its service center or storage facility. In no event shall Carrier's liability as a warehouseman exceed the maximum liability limitation amount set forth in this tariff.

**Part 5 – Indemnification**

Logistics Provider shall indemnify, defend and hold harmless Carrier, including its respective officers, directors, agents, employees and parent, and other affiliated companies, from and against any and all claims, demands, losses, damages, costs and expenses (including reasonable attorney's fees, costs and expenses), connected with or resulting from (i) Logistic Provider's or customer's violation of any local, state or federal law or regulation, (ii) Logistic Provider's breach of any representation or warranty contained herein, (iii) strict liability imposed upon Logistics Provider by any law or regulation, or (iv) injury to or death of any person, injury to property, or to natural resources to the extent arising out of the Logistics Provider's or its Customer's (or its respective employees' or agents') negligent acts or omissions or willful misconduct. Carrier shall provide a Logistics Provider with (1) written notice of any such claim; (2) sole authority and control over the defense and/or settlement of such claim; and (3) upon the written request from the Logistics Provider, such reasonable assistance and information as is available for the defense of such claim at the Logistics Provider's expense.

**Item 166 Carrier Liability for Cargo Loss or Damage**

2. In no event shall Carrier be liable to any party to the extent damages represent loss of profit, income, interest, attorney fees or are incidental, consequential, special, punitive or exemplary, whether or not Carrier knew or should have known that such damages might be incurred by the customer, shipper, consignee or a third party. This liability limitation extends to the delay, misdelivery or nondelivery of information regarding the shipment.
3. Where the rate or NMFC classification is dependent on value, the declared value of the goods must be stated in writing on the bill of lading.

**Part 2 – Liability for Commodities or Articles Subject to Exception Ratings (See Note 6)**

**Part 9 – Liability – TForce Freight LTL Expedited**

Carrier's liability for loss or damage to Expedited shipments (as defined in Item 822), moving "out of network", will be subject to a maximum \$0.50 per pound per package and any other applicable limits set forth in this tariff, unless "Excess Declared Value Coverage" is specifically requested along with the amount of coverage needed in writing on the bill of lading at the time of shipment and applicable charges are paid. Carrier's liability for loss or damage to Expedited shipments moving "in network" will be subject to the terms and conditions otherwise stated herein this Item 166.

**Part 10 – Liability for Protective Service Shipments (See also Item 810)**

1. Carrier shall have no liability for loss, damage or destruction to any shipment or part thereof for failure to provide protective service (Temperature Controlled or Freezable Protection as described in Item 810), (i) if such is the result of a delay in delivery because of the need for a delivery appointment, notification prior to delivery or any other delay not attributable to the negligence on the part of the Carrier, (ii) if the shipment is refused by the consignee, (iii) if the bill of lading does not indicate "TEMPERATURE CONTROLLED SERVICE REQUESTED", or "PROTECT FROM FREEZING", as applicable, at the time of the shipment, (iv) if shipper fails to comply with the applicable pickup and/or delivery process set forth in the Conditions of Service in Item 810, (including without limitation, in the case of Temperature Controlled Service, if shipper fails to arrange the transportation service through TForce Freight LTL Expedited ), or (v) if any of the Exclusions of Service in Item 810 apply.

**Part 11 – Loss or Damage Claim Filing – Noted Damage**

1. Carrier will investigate and dispose of cargo loss and damage claims under common carrier provisions as set forth in Title 49 CFR, Part 370 and NMFC items 300100 through 300155. Claims for full shipment shortage of property transported by Carrier must be filed with Carrier within nine (9) months following the date the shipment was tendered. Claims for damage or partial shortage of property transported by Carrier must be filed with Carrier within nine (9) months from date of delivery. Failure to do so shall forever bar recovery of the claim. Any action at law with respect to such claim must be instituted against Carrier within a period of two years from the date on which Carrier provided written notice disallowing all or part of the claim for which the action is sought.
2. All claims must be accompanied by documents supporting the amount of the claim. This documentation may include original manufacturer invoices, purchase orders, statements of actual expense incurred such as invoices for repair or repackaging, or other documents verifiable to Carrier's satisfaction.
3. Delivery receipts without written notice of damage by the recipient are prima facie evidence that the shipment was delivered in good condition. Visible loss or damage apparent at the time of delivery should be recorded in detail on the delivery receipt.
4. Bills of lading containing written notice of damage at time the freight is tendered to Carrier shall be considered prima facie evidence that the freight was received damaged. Carrier shall accept no liability for damage claims stemming from the transport, handling or delivery of said freight.
5. When it is alleged that Carrier has damaged freight while in its possession, and where salvage value will be a substantial element of the claim it is the duty of the consignee, shipper or Claimant to handle the freight in such a manner as to mitigate the claimed loss through repackaging, repair or salvage proceeds. Carrier, after giving due notice whenever practicable to do so to the owner and other parties that may have an interest therein, and unless advised to the contrary after giving such notice, shall undertake to dispose of such freight in a manner that will fairly and equitably protect the interests of all persons having an interest in the freight.

2. Reports must include a request for inspection by Carrier's representative.
3. Notice of loss or damage and request for inspection may be given by telephone or in person, but must be confirmed by a written or electronic communication.
4. While awaiting inspection by Carrier, consignee must hold the shipping container and its contents in the same condition they were in when damage was discovered, insofar as it is possible to do so.
5. Notice of loss or damage should be provided to Carrier within five (5) Business Days from the date of delivery.
6. If five (5) Business Days pass between the date of delivery of the shipment by Carrier and date of report of loss or damage and request for inspection by consignee, it is incumbent upon consignee to offer clear and convincing evidence to Carrier when inspection is made that loss or damage was not incurred by the consignee after delivery of shipment. Clear and convincing evidence includes, but is not limited to:
  - a. Identifying the party(ies) responsible for unloading,
  - b. Identifying the chain of custody of the article, including prior transportation by any mode,
  - c. Location(s) of the article(s) once the shipment was received until the damage was noted,
  - d. Any mechanical or physical handling by the consignee subsequent to delivery by Carrier.
  - e. Video or photographic evidence.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

7. If a clear delivery receipt is available on the shipment, e.g. no damage or shortage is noted, it is the Claimant's responsibility to provide documentation proving that any claimed damage or loss occurred prior to delivery by Carrier.

**Part 13 – Offsetting of Freight Charges**

Claims and claim amounts made against Carrier (whether filed or unfiled) may not be offset by customer, shipper, consignee or payer against freight charges otherwise owed to Carrier.

**Part 14 – Liability Limits for Density Based Rating**

Shipments moving under Item 645 will be subject to the following limits of liability for new articles. Exclusive of the limits defined below for new articles, shipments moving under Item 645 will be subject to all other liability provisions outlined under Item 166.

1. For shipments with a density of 22.5 or higher, Carrier's liability for loss, damage or destruction to any shipment or part thereof is limited to the actual invoice value of the commodities or articles lost, damaged or destroyed or two dollars (\$2.00) per pound per item, whichever is less, up to a maximum of \$3,000 per incident, unless Excess Declared Value Coverage is requested and additional charges are paid as outlined in Item 166-1.
2. For shipments with a density between 12 and 22.4, Carrier's liability for loss, damage or destruction to any shipment or part thereof is limited to the actual invoice value of the commodities or articles lost, damaged, or destroyed or five dollars (\$5.00) per pound per item, whichever is less, up to a maximum of \$7,500 per incident, unless Excess Declared Value Coverage is requested and additional charges are paid as outlined in Item 166-1.
3. For shipments with a density of 11.9 or less, Carrier's liability for loss, damage or destruction to any shipment or part thereof is limited to the actual invoice value of the commodities or articles lost, damaged, or destroyed or eight dollars (\$8.00) per pound per item, whichever is less, up to a maximum of \$12,000 per incident, unless Excess Declared Value Coverage is requested and additional charges are paid as outlined in Item 166-1.

**Part 15 – Liability Limits to Shipping Containers**

Carrier shall have no liability for superficial damage to shipping containers designed for repeated use in the normal course of business (i.e. tradeshow cases, totes, crates) where the basic integrity of the container is not diminished. Carrier will accept liability where the container was lost or damaged while in Carrier's custody or control and the container can no longer be used for its intended purpose, (e.g. it has been crushed, punctured, lost or destroyed). Carrier's maximum liability in cases of loss or damage of this type will be limited to a depreciated value of the container based upon its original cost, its expected normal useful life, and the time the container has been in service, subject to a maximum of \$5.00 per pound. Claimant will support the initial cost by providing the original invoice. This maximum liability will be subject to all other applicable limits of liability such as repair costs identified herein. See Item 148 for the application of rates and other conditions related to trade show shipments.

**Carrier Liability Notes**

Note 1 In no case shall Carrier's liability for new items exceed \$100,000.00 per shipment unless Excess Declared Value Coverage is requested and the additional charges are paid.

Note 2 Shipments of commodities or articles that have an invoice value exceeding the maximum liability limits outlined above will be considered shipments of "extraordinary value," and will not be accepted except under the conditions and charges as provided in Item 166-1 "Excess Declared Value Coverage." Moreover, if inadvertently accepted, such shipments will be considered released at a value not to exceed the maximum liability limitations provided herein. Commodities identified as restricted in Item 780-1A, are subject to additional liability limitations and approval prior to acceptance of the shipment.

Note 3 Where the term "per package" is used, it shall mean the smallest identifiable unit authorized by the provisions of the individual tariffs or classification item. In the event of partial loss, damage or destruction to a shipment, the Claimant shall be entitled to a partial recovery based on the per pound per package liability limits of this Item. The amount of Claimant's maximum recovery shall be determined by dividing the weight of the particular package or packages that were lost, damaged or destroyed by the weight of the entire shipment and then multiplying that ratio by Carrier's total maximum liability for the entire shipment. For example, assuming (1) the maximum liability for a particular shipment is \$25.00 per pound per package, (2) the entire shipment weighed 100 pounds, (3) the packages that were lost, damaged, or destroyed weighed a total of thirty pounds, and (4) the total invoice value of the lost, damaged, or destroyed packages was \$900.00 dollars, then Claimant's total recovery would be \$750.00 dollars. If the weight of the individual package or packages that were lost, damaged or destroyed cannot be determined, then the average weight per package will be used to determine the Claimant's total recovery.

Note 4 Whenever the NMFC provides a released value rating for any commodity or article included in a shipment, such value shall be stated on the shipping order and bill of lading at time of shipment. Should shipper or shipper's agent fail to state the released value of such commodity or article at time of shipment or declares a value higher than the highest released value shown, the shipment will be subject to the lowest released value provided for such commodity or article in the NMFC. Excess Declared Value Coverage in Item 166-1 is not applicable for commodities or articles subject to released value ratings in the NMFC and where the shipment moves at a release value rate.

Note 5 Whenever a customer's pricing program provides rates or charges based on exception class rating level, on a freight of all kinds exception class or on a stated rate or charge per handling unit (whether or not the shipment is rated as a minimum charge), and the NMFC provides released or declared value ratings for such commodity or article, the lowest released value provided for such commodity or article will apply, regardless of any notation, absence of a released notation, or higher value declaration on the bill of lading to the contrary.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

- Note 6 Where a commodity or article is subject to more than one liability limit shown herein, the lowest applicable liability limit shall apply.
- Note 7 Whenever the NMFC provides an actual value rating for any commodity or article included in a shipment, such value shall be stated on the shipping order and bill of lading at time of shipment. Carrier's liability shall not exceed the actual value shown on the shipping order and bill of lading, and shall be subject to the maximum Carrier liability limits otherwise shown in this Item. Excess Declared Value Coverage in Item 166-1 is not applicable for actual value commodities or articles.
- Note 8 Movement of property as part of a continuous movement that has been or will be transported by an "air carrier" is subject to a maximum liability of 50 cents per pound per package.
- Note 9 Carrier liability limits shown in this Item apply even when the shipment is rated at the minimum charge. Apply the liability limit otherwise applicable to the shipment for less-than-truckload or Capacity Load shipments.
- Note 10 For shipments moving on shrink wrapped skids, and where the shrink wrap is intact on delivery, Carrier shall not be liable for loss or damage to individual items.
- Note 11 Carrier shall not be liable for loss, damage or for any delay to a shipment caused by an act of God, the public enemy, the authority of law, the inherent nature or vice of the goods (including but not limited to natural shrinkage), or resulting from an act or default of the shipper, consignee or customer.
- Note 12 Each of the customer, shipper, consignee, broker and owner of the goods shall, at its cost and expense, comply with all applicable federal, state, local, and international laws, rules and regulations pertaining to its shipments, and agrees to furnish all documents necessary to comply with such laws, and shall be responsible for all costs (including Carrier accessorial charges), liabilities, delays, fines and expenses caused by, resulting from or otherwise associated with any noncompliance with any such laws, rules or regulations. Under no circumstances shall Carrier be liable for any failure to comply with any such provisions.
- Note 13 If loss or damage occurs to goods in transit during the loading, handling, stowage, or carriage on an ocean vessel, or during the discharge of such goods from the ocean vessel, Carrier liability shall be limited to the actual value, the liability limits shown in Parts 1- 8 of this Item or \$500 per package, whichever is less.
- Note 14 Carrier has identified certain commodities it is prohibited from handling, or which require prior written approval before tendering to Carrier. Liability for loss or damage of these types of commodities is further limited. See Item 780 for details.
- Note 15 Carrier's liability for loss, damage or destruction of commodities in storage (See Item 910) is limited to \$1.00 per pound per package unless otherwise provided for in a customer pricing agreement.
- Note 16 Carrier's maximum liability for labor associated with the repair of a damaged item(s) to mitigate a claim will be the lesser of the actual incurred charge or \$50 per labor hour.

**Item 166-1 Excess Declared Value Coverage**

1. The shipper or owner of the goods may request "Excess Declared Value Coverage" for shipments of commodities or articles that exceed the maximum liability limitations provided in Item 166 or in other tariffs or contracts making specific reference to this Item 166-1. Shipments that are inadvertently accepted that exceed these limitations, and where "Excess Declared Value Coverage" is not requested, will be considered released at a value not to exceed the maximum liability limitations shown in Item 166.
2. "Excess Declared Value Coverage" will be deemed to be requested when the bill of lading specifically contains a request for excess coverage including the total dollar amount of excess coverage requested. (See Examples below and Note 1)

"\$20,000.00 Excess Declared Value Coverage requested"

"\$20,000.00 excess liability requested"

OR

OR

"Excess Declared Value Coverage requested: \$20,000.00"

"Excess liability requested: \$20,000.00"

3. The charge for the Excess Declared Value Coverage will be in addition to any other freight charges accruing to the shipment, and is to be paid by the party responsible for payment of the freight charges, as follows:

For shipments originating in the US:

3% of the amount of excess liability requested,  
Subject to a minimum charge of \$74.50 per shipment

For shipments originating in Canada:

3% of the amount of excess liability requested (Canadian dollars)

4. The fee for Excess Declared Value Coverage is not recoverable in the event of cargo claim for loss or damages.
5. The maximum Excess Declared Value Coverage allowed is \$100,000.00 per shipment, except for commodities other than new, for which the maximum excess declared value coverage is limited to \$5.00 per pound per package, subject to a maximum of \$5,000 per shipment. In no case shall Carrier's total liability (including Excess Declared Value Coverage) exceed the actual invoice value of the goods shipped.

Note 1 Carrier Excess Declared Value Coverage is NOT insurance. A statement on the bill of lading to insure for a specific value or a statement of value without an express request for Excess Declared Value Coverage will not increase Carrier's liability, and charges for Excess Declared Value Coverage will not be assessed.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

Note 2 Excess Declared Value Coverage requested in excess of the maximums allowed will not increase Carrier's liability above the stated maximums. In the event Excess Declared Value Coverage is requested for an amount greater than the maximums provided, the maximum allowable Excess Declared Value Coverage shall apply.

Note 3 Excess Declared Value Coverage is not applicable on or available for Prohibited Articles (see Item 780, Part 1), Restricted Articles (see Item 780, Part 1-A) or commodities or articles where the NMFC provides actual or released value ratings. Any request for Excess Declared Value Coverage on such articles is null and void, and acceptance of a shipment bearing a request for Excess Declared Value Coverage does not constitute a waiver of any provision of this tariff as to such shipment. Commodities identified as restricted in Item 780-Part 1-A, are subject to additional liability limitations and approval prior to acceptance of the shipment.

**Item 170 Minimum Payment Amount for Allowance, Discount and Incentive Checks**

1. Should a participant in an allowance, discount or incentive program fail to tender or receive a sufficient volume of business to earn a payment from Carrier of \$50.00 or more in a period (month, quarter or year as defined in the program), no payment will be made. Each period will stand on its own for payment computation purposes. Business volume will not be rolled over from one period to the next in order to meet the minimum payment requirement. Should a participant fail to meet the \$50.00 minimum payment requirement for three consecutive periods the allowance, discount or incentive program will be rendered inapplicable and will be canceled.
2. Should a participant become delinquent as described in Item 721, any allowance, discount, or incentive payment otherwise due pursuant to this Item will be forfeited by the participant. Carrier may reinstate the allowance, discount or incentive at its sole and unlimited discretion on a case-by-case basis depending on the cause of the delinquency, the duration of the delinquency and other facts at its disposal.

**Item 171 Artificial Construction of Density (Bumping): Non – Application Exception to NMFC item 171**

Bumping is the declaration on the original bill of lading of an artificially higher weight for the purpose of causing a higher density that allows the article or piece being "Bumped" to qualify for a lower classification rating. The provisions of NMFC item 171 "Bumping" will not apply.

**Item 300 Advancing or Paying Charges - Exception to NMFC item 300**

Unless otherwise instructed by the shipper, consignee, or customer, Carrier may advance charges for truck entry fees, pier handling fees, or for accrued lawful charges of air or water carriers. Such advancements or payments together with the charges accruing under this Item will be assessed to the party paying the freight charges. The following service charge applies:

6% of the amount advanced or paid  
\$150.00 minimum charge per shipment

Note: Provisions of this Item do not include the advancing of customs broker's fees or in bond shipments moving from a place in a foreign country to another place in a foreign country and transported through the United States.

**Item 345 Undeliverable Freight**

1. If freight cannot be delivered because of the consignee's refusal or inability to accept it, or because Carrier cannot locate the consignee, or if freight cannot be transported because of an error or omission on the part of the shipper, Carrier will make a diligent effort to notify the shipper promptly that the freight is in storage and the reason thereof.
2. Undelivered shipments will be subject to applicable storage or detention charges.
3. Instructions for the disposition of undelivered shipments printed on the bill of lading, shipping order, shipping label, or container or disposition instructions issued prior to tender of delivery will not be accepted as an authority to reship, return, or reconsign a shipment, or to limit storage liability where they conflict with the instructions and terms of the TForce Freight bill of lading (see Item 110) and the terms and conditions for disposition of undelivered freight, as further described in Item 910.

**Item 360 Application of Classes -Exceptions to NMFC 100 Series items 170 and 421**

1. To ensure the correct assessment of freight charges and to avoid infractions of federal and state laws, the preparer of the bill of lading must use proper commodity word descriptions on the bills of lading and shipping orders. Such descriptions must conform to those shown in the NMFC and applicable laws and regulations.
2. Appropriate abbreviated descriptions are permitted provided the NMFC item is used and appropriate Sub number thereof are shown. Incomplete or improper commodity descriptions accompanied by a class rating (i.e. "Class 70" or "FAK 70") are not acceptable forms of abbreviation and shall not determine the classification rating applicable to such commodity. Packaging types are required for classification rating and must be shown.
3. If Carrier receives a bill of lading, shipping order, manifest or receipt for goods where an incomplete or improper commodity description is used or where the NMFC item number is not valid or has expired, Carrier may classify the freight according to the information shown. In the event Carrier, in its reasonable judgment, cannot determine the proper classification rating,

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**  
**Section 1**

the shipment will be assigned a class, and rates will be assessed on the basis of the shipment density as calculated in Item 640.

4. On shipments where the commodities have been combined or attached to each other, and not specifically classified or described in this tariff or in the governing publications (see Item 115), the commodities will be charged at a rate of the highest rated article(s) of the combined unit. On a shipment subject to volume rates, the minimum weight will be the highest minimum weight provided for any article in the combination.
5. For commodities that are subject to different class ratings dependent upon the actual density or density group, the bills of lading and shipping orders must indicate the actual density or density group for the commodity shipped. If the actual density or density group is not shown and the shipment is inadvertently accepted, Carrier will assess its charges on the highest class provided for such commodity not to exceed a class 250 rating.

Note: Upon submission of satisfactory documentation of the actual commodity shipped and where a proper description of articles can be determined, charges will be adjusted on the basis of the proper description, NMFC item and class. This documentation may be an invoice or packing slip along with a spec sheet or catalog page that lists the commodity description, weight and shipping dimensions; or a copy of the spec sheet or catalog page information identifying the freight that references the item indicated on the original bill of lading. A bill of lading covering the same shipment or a copy of the original bill of lading with typed or hand-written description, weight, density or class changes is NOT acceptable.

**Item 361-A Bill of Lading, Letter of Authority and Freight Bill Corrections -Exception to NMFC Item 360**

1. Carrier's transportation services are governed by the TForce Freight bill of lading terms and conditions as shown in Item 110 of this rules tariff, unless modified by the rules and charges published in this tariff, or covered in a separate agreement between the customer and Carrier. If a shipper elects to use a non-authorized bill of lading contract or other form of freight receipt, such non-authorized forms are not contracts of carriage and Carrier will not be subject to its terms and conditions. The terms and conditions of the TForce Freight bill of lading shall apply and govern.
2. Where a bill of lading issued by the shipper is a non-authorized form, a driver or other carrier signature will acknowledge receipt of the freight only. Carrier driver's signature does not constitute acceptance of any terms (including, but not limited to, notations regarding special or consequential damages) which conflict or are inconsistent with the TForce Freight bill of lading terms and conditions. Continued use of unauthorized bills of lading by shipper does not constitute an implied acceptance or ratification by Carrier.
3. When the bill of lading does not indicate which party (shipper, consignee or Third Party) is responsible for payment of the freight charges, the freight charges will be billed prepaid and freight charges assessed against the party identified as the shipper on the bill of lading, or its agent.
4. Movement of property as part of a continuous movement that has been or will be transported by an air, ocean or rail carrier will be subject to the terms and conditions of the TForce Freight bill of lading together with any applicable tariffs, released rates, or limits of liability. On a through bill of lading which anticipates movement by another mode of carriage, the shipper authorizes Carrier to act as its agent to sign any additional bill of lading as shipper's agent and shipper will be bound by the lowest limitation of liability under the applicable bill unless the shipper agrees in writing to seek full liability coverage and to be responsible for payment of the requisite freight charges to obtain full liability coverage. Should a connecting carrier not offer full liability coverage when requested by the shipper in writing, Carrier shall be authorized to obtain the highest liability coverage offered by the connecting carrier and shipper will be responsible for the applicable freight charges.
5. Any time Carrier must issue a freight bill correction, due to no fault of Carrier, to correct any invoice, freight bill or delivery receipt which was billed correctly by Carrier in accordance with the original bill of lading, the following provisions will apply:
  - a. Prior to delivery, a request to change the payment terms (prepaid or collect) or to add or change a Third Party on a freight bill will be permitted upon receipt of a corrected bill of lading ("CBOL") or letter of authority ("LOA") with written instructions from the shipper. The following fee will be applied to change a freight bill or issue a freight bill correction prior to delivery for payment terms, name or address or payer or otherwise:

\$48.00
  - b. After a shipment has been delivered, but prior to receipt of payment, a change in payment terms or payer will not be permitted unless written authorization is provided to Carrier by the party (shipper, consignee or Third Party) assuming responsibility for payment. Carrier reserves the right to disallow a requested change after shipment delivery if the new payer has not been extended credit, or if Section 7 of the bill of lading has been signed by the consignor, or if the shipment has been lost or damaged. The following fee will be applied to change a freight bill or issue a freight bill correction after delivery for payment terms, name or address of payer, or otherwise:

\$48.00
  - c. After payment has been received based on the original terms of the bill of lading, requests to change the party responsible for payment of the freight charges may not be allowed without Carrier's approval. Carrier reserves the right to disallow a requested change after payment has been received if the new payer has not been extended credit. If a refund is requested, no refund shall be made until payment has been received. The correction fee will be assessed against the new payer. The following fee will be applied to change a freight bill or issue a freight bill correction after

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**  
**Section 1**

payment has been received:

\$48.00

- d. CBOL and/or LOA will not be accepted: (i) to change the released, declared or actual value of the commodity on the freight bill; (ii) to change the weight, commodity, cubic feet, or density after freight has delivered, unless proof of weight, commodity, or density can be established and accepted by Carrier as satisfactory proof. "Proof" is described as an invoice, or packing slip along with a pre-printed spec sheet or catalog page, which lists the commodity description, weight, and shipping dimensions. If an invoice and packing slip are not available, then a copy of the spec sheet, or catalog page information identifying the freight must correspond to an order/product number, which can also be found on the original bill of lading. A new bill of lading covering the same shipment or another copy of the original bill of lading with typed or hand-written description, weight, density, or class changes will NOT be accepted as proof; or (iii) to change a shipper name/address or a consignee name/address after freight has delivered.

**Special Provisions for Canadian Cross Border Shipments**

If Carrier receives a bill of lading, shipping order, manifest or receipt for goods where an incomplete or improper commodity description is used or where the NMFC item number is not valid or has expired, Carrier may modify or update the commodity description via a corrected bill of lading. Shipper remains liable and agrees to indemnify and hold Carrier harmless for all penalties, payments, costs, fines, and expenses (including, without limitation, reasonable legal fees) associated with a wrong or incomplete commodity description on the shipping document. The following fee will be applied for modification or update of commodity description via a corrected bill of lading;

\$48.00

Note 1 A CBOL replaces the original. An LOA is a letter or written instructions requesting changes on company letterhead and will complement a bill of lading or CBOL.

Note 2 This Item is not applicable on shipments originating in Canada to the extent these provisions are inconsistent with Canadian laws.

Note 3 When a shipment is moving cross border between the US and Canada, a commercial invoice must be included with the shipment's cross border documents. Without a commercial invoice the shipment may not cross the border.

**Item 362 Inspection of Property**

In the event Carrier or its Agent believes it is necessary that the contents of packages be inspected, it will take the action necessary to make that inspection, or require other sufficient evidence to determine the actual characteristics of the commodities. Actions to determine actual freight characteristics include inspection of packages; verification of gross shipment weights, verification of density (see Item 171), or collection of other sufficient evidence necessary to verify whether the shipment is described correctly. When found incorrectly described, the bill of lading and the Carrier freight bill will be corrected and freight charges assessed according to the proper descriptions and weights. If all commodities cannot be determined, shipment will be subject to Item 640 in this tariff for mixed commodities and a density rate will apply.

**Item 363 Order Notify Shipments**

Carrier does not provide order/notify service, also referred to as negotiable bill of lading. Bills of lading or shipping instructions tendered to Carrier in the form of an order/notify bill of lading will be handled as a straight bill of lading. Instructions requesting Carrier to not complete delivery of a shipment until either securing authorization for delivery from the shipper or some other party, surrender of the bill of lading or notification by Carrier to the shipper or some other party, shall have no effect and will be void regardless of whether such instructions are contained in a straight or an order/notify bill of lading; and the Carrier shall have no liability for delivering a shipment to the consignee listed in the bill of lading in such circumstances.

**Item 365 Inspection / Reclassification**

1. All shipments handled by Carrier are subject to inspection by Carrier or governmental agencies at any time for any reason, including but not limited to, confirmation that the shipment contains the items described on the bill of lading, and the shipment does not violate applicable laws, rules, regulations, or tariff provisions, or for any other reason determined as necessary in Carrier's or governmental agency's sole and unlimited discretion. However, Carrier is not obligated to perform any inspection and does not assert that acceptance of a shipment is proof of shipper's compliance with any such applicable provisions. By tendering the shipment to Carrier, shipper, consignee, and any interested third party consent to

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

such inspections and agree that Carrier will not be held liable for any loss, damage, action or event arising out of such inspection, except to the extent that Carrier is negligent in performing the inspection.

2. When an inspection by Carrier results in an increase or decrease in the net freight charges by \$15.00 or more, the following charge will apply: This charge shall be the responsibility of the party responsible for the payment of the freight charges and shall be in addition to all other applicable charges.

\$40.00 per shipment

3. The charge in this Item will NOT apply if the minimum weight or minimum charge in any of the following rules is used to determine final charges:
  - a. Capacity Load Minimum Charge (Item 390)
  - b. Minimum Charge - Cubic Capacity and Density (Item 575)
  - c. Extreme Length / Over Dimension Minimum Charge (Item 670)
4. The provisions of this Item do NOT apply when the inspection of a shipment is to determine the Cube for rating offshore shipments destined to Alaska, Guam, Hawaii, Puerto Rico or the U.S. Virgin Islands.

Note 1 When two or more shipments are tendered to Carrier from the same place during one calendar day for delivery to one place and the aggregate is equal to or exceeds 20,000 lbs. or 28 linear feet of a vehicle, they will be consolidated and considered as one shipment. Provisions of Item 575 may apply.

Note 2 LTL shipments are subject to weight groups L5C through M10M. Capacity load shipments are subject to weight groups of M20M or greater.

**Item 390 Capacity Load – Minimum Charge**

Any shipment tendered to Carrier that occupies the full visible capacity of a Van or doubles trailer shall be subject to the minimum charge as provided below.

1. The provisions of this Item do not apply if the otherwise applicable charge is greater than the minimum charge provided herein.
2. The term “occupies the full visible capacity”, “loaded to capacity”, or “capacity load” refers to the extent each Van or doubles trailer is loaded and shall mean:
  - a. That quantity of freight which because of unusual shape or dimensions or because of necessity for segregation from other freight requires the entire capacity of a vehicle or doubles trailer; or
  - b. That quantity of freight which, in the manner loaded, utilized a linear length of 15 feet or more and either of the following conditions apply: 1. Linear width of the freight is equal to or is greater than 5 feet in the Van or doubles trailer; or 2. Linear width of the freight is less than 5 feet and no article identical in size and shipping form to the largest article in the shipment can be loaded in the Van or doubles trailer; or
  - c. That quantity of freight that exceeds 15,000 pounds, or by weight or size exceeds that which can be legally loaded in a Van or doubles trailer.
3. Each Van or doubles trailer loaded to capacity will be rated as a separate shipment and will be subject to the minimum charge provided below. When the charge is applicable to any vehicle or doubles trailer in the tender, the charge for that portion of the shipment loaded into the last Van or doubles trailer (not loaded to capacity) will be rated as a separate shipment.
4. Carrier shall notate on the bill of lading, freight bill, or inspection report the size of the shipment or the number of Vans or doubles trailers loaded to capacity and if any additional Vans or doubles trailers carrying less than capacity were furnished. Carrier will indicate the weight of that portion of the shipment on the Van or doubles trailer carrying less than a capacity load.
5. On request of the shipper, Carrier will attempt to furnish the largest capacity vehicle available. Shipper will have the right to refuse the vehicle offered, but once loading has begun, the provisions of this Item shall apply.
6. Should Carrier receive two or more shipments from one shipper at one origin address, destined to one or more consignees at the same delivery address, during one calendar day, that if combined would cause the “full capacity” of a Van or doubles trailer, then the aggregate shipments will be combined and considered as one shipment and will be subject to the provisions of this Item.
7. On shipments that move via two or more carriers, the minimum charge provided in this Item shall be based on the vehicle or doubles trailer furnished by the originating carrier, and will apply to the continuous through movement.
8. The rates and/or charges shown below in Table 390A (doubles trailer) or Table 390B (Van) apply on Interstate and Intrastate shipments between points in the Continental United States and between points in the continental United States and Canada. Rates and/or charges in this Item shall be determined as follows:
  - a. First, determine the actual mileage from point of origin to point of destination by the shortest regularly traveled available highway routes using Tariff STB – HGB 105 Series (US/US) or STB – HGB 100 (US/CN) Mileage Guides (See Note 3).

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

- b. Using the State/Province Zone Matrix, determine the Zone number for both the Origin State and the Destination State.
- c. Refer to the applicable Table 390A (for doubles trailer) or Table 390B (for Van).
- d. Apply the mileage between origin and destination to either Table 390A or Table 390B to determine the applicable rate per mile subject to the stated minimum charge in the applicable Table.
- e. Rates and/or charges are stated in cents per mile per doubles trailer or Van used.

Note 1 All rates and/or charges shown herein shall be considered volume or Capacity Load.

Note 2 Except as otherwise provided, shipments are not subject to allowances, discounts, or reductions.

Note 3 When, at the request of the consignor, a longer route than the shortest available regularly traveled route is used, the actual mileage over the longer route shall apply.

Note 4 Rates and/ or charges provided for in this Item apply on "Freight all Kinds" (FAK) as described in the NMFC except will not apply on shipments of hazardous wastes that require or are accompanied by an Environmental Protection Agency (EPA) or state hazardous waste manifest, household goods, Class 1.1 through 1.6 explosives, livestock, poultry, articles that cannot be loaded inside a vehicle or doubles trailer, articles of unusual value, commodities requiring special equipment or commodities injurious or contaminating to other freight.

**Item 430 Collect on Delivery (COD) Shipments**

Carrier does not provide service on Collect on Delivery (C.O.D.) shipments. In the event Carrier is tendered a shipment with instructions on the collection of C.O.D., Carrier will make its best efforts to notify the appropriate parties for disposition instructions. All storage, reconsignment and freight charges will apply. Carrier will not be liable for collection of the C.O.D. amount as this is not a service provided by Carrier.

**Item 435 Collection of Charges – Third Party**

1. The shipper is responsible to show the name and address of the Third Party on the bill of lading at time of shipment.
2. A shipment on which the charges are to be paid by a Third Party must be prepaid and will only be accepted if the shipper has established credit with Carrier and guarantees to pay the charges if the Third Party fails to do so. Such shipment will NOT be accepted if the shipper executes Section 7 of the bill of lading, or if the shipment is marked collect. If the shipment is inadvertently accepted, signing of Section 7 will NOT be applicable and the shipper will remain liable for all freight charges.
3. A shipment on which the invoice is to be sent and paid by a Bill to Party, payment terms will be changed from prepaid to collect or from collect to prepaid, as necessary, to ensure that the shipment is Prepaid, if the shipper and bill to party are affiliated, or Collect, if the consignee and bill to party are affiliated.

**Item 465 Containers, Pallets, Skids - Exception to NMFC item 640**

1. When shipments are tendered to Carrier and transported in or on any shipping containers, such as pallets, platforms, racks, reels, or skids, these containers constitute an integral part of the shipment, are to be charged at the rate applicable for the commodity they carry, as the container is part of the shipment. They are to be delivered to and receipted for by the consignee(s) named on the bill of lading covering the loaded movement.
2. Shipments of mixed commodities will be governed by NMFC item 640, except Sec. 3(b) (3) shall read, "The weight of pallets, platforms, racks, skids, unitizing materials or packaging devices as required by Paragraph 3(b) (5) must be shown on the shipping order and the bill of lading and will be charged at the lowest class applicable to any article or articles in the shipment. Where rating based solely on density is applicable, the weight and dimensions of pallets, platforms, racks, skids, unitizing materials, or packaging devices as required by Paragraph 3(b) (5) must be shown on the shipping order and the bill of lading. The calculation of the shipment cube for rating purposes will be based on the greatest dimensions of the tendered container(s) by the shipper."
3. Unless written agreements have been made with the shipper, any request or provision noted on the bill of lading or shipping order at the time of movement requesting the return of these shipping devices, forms or packages will not be binding upon Carrier to accomplish or comply with such request or provision to complete the contract of carriage on the shipment.

**Item 466          Application of Rates – Pallets**

When governed by this tariff, any tariff, contract, customer specific pricing agreement, or statement of agreed pricing that provides rates/charges stated in units of "Per Pallet" subject to a maximum weight per pallet, the following will apply if the total shipment weight exceeds the maximum stated weight per pallet, multiplied by the number of pallets:

1. Divide the total shipment weight by the stated maximum weight per pallet
2. Round all fractions up to the next whole number
3. Use this number so calculated to determine the number of pallets to be charged for at the stated rate per pallet

Example: Stated maximum weight per pallet equals 2,400 pounds. Shipment consists of 3 pallets with total weight of 8,000 pounds. Divide 8,000 pounds by the 2,400 pound stated maximum = 3.3. Round 3.3 to 4 pallets. Charge to be computed at the applicable rate per pallet for 4 pallets.

  - c. Refer to the applicable Table 470-A (for doubles trailer) or Table 470-B (for Van).
  - d. Apply the mileage between origin and destination to either Table 470-A or Table 470-B to determine the applicable rate per mile subject to the stated minimum charge in the applicable Table.

\$135.00 per shipment inspected

The Importer of Record for the shipment will be responsible for the charges in this Item. - a. Free time for loading or unloading shall be determined by the weight of the shipment as shown in Table 500 as follows:

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**  
**Section 1**

<b>Table 500</b>			
<b>Shipment Weight (in pounds)</b>	<b>Free time (in minutes)</b>	<b>Shipment Weight (in pounds)</b>	<b>Free Time (in minutes)</b>
Less than 2,500	30	7,500 – 9,999	120
2,500 – 4,999	60	10,000 – 19,999	180
5,000 – 7,499	90	20,000 or more	240

- b. When multiple shipments are received from one shipper or delivered to one consignee at one time in one vehicle free time shall be computed on the aggregate weight received or delivered.
- c. The provisions and charges apply to equipment owned by steamship lines, railroads or third party leasing companies.
3. Computation of free time shall begin upon notification by the driver to the responsible representative of the shipper or consignee of the arrival of the vehicle for loading or unloading. Time shall end upon completion of loading or unloading and receipt by the driver of a signed bill of lading or receipt for delivery.
4. Unless the shipper or consignee stamps or marks the delivery receipt with time of arrival and departure, Carrier's records shall be used to determine whether free time has expired.
5. When through no fault of Carrier, the loading or unloading of a vehicle with power cannot be completed at the end of a normal Business Day the shipper or consignee may use one of the following options:
  - a. Request that the vehicle without power remain at its premises. However, free time shall cease immediately at the time request is made and detention charges for vehicle without power shall apply.
  - b. Request that the vehicle with power be returned to Carrier's premises. At that time, computation of any remaining free time shall cease. That portion of the shipment in Carrier's possession shall be subject to storage charges. When the vehicle is returned to the premises of the shipper or consignee computation of any remaining free time shall resume. That portion of a shipment that is redelivered shall be subject to redelivery charges.
  - c. Request that loading or unloading continue during non-Business Hours, subject to the provisions of Item 754.
6. The amounts due Carrier under the provisions of this Item shall be assessed against the shipper in the case of loading, and against the consignee in the case of unloading, irrespective of whether the line haul charges are prepaid or collect.

**Item 501 Detention – Without Power**

1. Subject to the availability of equipment, Carrier will spot empty or loaded trailers for loading or unloading on the premises of shipper, consignee, or on other premises designated by them, or as close thereto as conditions will permit. Shipper, consignee or the party designated by them, receiving a spotted trailer may move the trailer with its own power units at its own expense and shall be liable if the trailer is lost, stolen or damaged while in their custody and control.
2. Loading or unloading will be performed by shipper, consignee or other party designated by them. When Carrier's employee assists in loading, unloading, or checking the freight, the detention provisions governing vehicles with power (see Item 500) will apply. In the case of spotting for loading, the bill of lading must show "Shipper Load and Count." Carrier shall not be responsible for any claims arising from exceptions (over, short or damaged freight) noted at Carrier's first physical check of the shipment.
3. Trailers spotted for loading or unloading will be allowed 24 consecutive hours of free time for loading or unloading, excluding non-Business Days.
4. Free time shall begin when Carrier notifies shipper or consignee that the vehicle(s) is available for loading or unloading.
5. After the expiration of free time as provided above, charges for detaining trailer(s) will be assessed against shipper in the case of spotting for loading and against consignee in the case of spotting for unloading regardless of whether transportation charges are prepaid or collect. The charges shall be assessed :
 

\$228.00 per trailer for each 24 hour period or fraction thereof (excluding non-Business Days)
6. Shipper, consignee, or other party designated by them shall notify Carrier when loading or unloading has been completed and the trailer(s) is available for pickup. The trailer will be deemed to be spotted and detention charges will accrue until such time as Carrier receives notification.
7. Nothing in this Item shall require Carrier to pickup or deliver spotted trailer(s) at hours other than Carrier's normal Business Hours. This shall not be construed as a restriction on Carrier's ability to pickup or deliver spotted trailer(s) at hours other than normal Business Hours.
8. Carrier responsibility for safeguarding shipments shall begin when Carrier takes possession of the trailer(s) loaded by shipper. Carrier responsibility for safeguarding shipments will end when Carrier spots trailer(s) for unloading by consignee, as the case may be.
9. When a spotted trailer is changed to a trailer with power at the request of shipper, consignee, or other party designated by them, the free time and detention charges will be applied as follows:
  - a. If the change is requested and made before the expiration of free time for a spotted trailer, free time will cease immediately at the time the request is made, and detention charges "with power" (Item 500) will immediately commence with no further free time allowed.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

- b. If the change is requested and made after the expiration of free time for a spotted trailer, free time and detention charges will be computed on the basis of a spotted trailer up to the time the change was requested. In addition, thereto, the trailer will immediately be charged detention "with power" (Item 500) with no further free time allowed.

**Item 510 Distances – Exceptions to Method of Determining Mileage**

1. Unless otherwise indicated in the pricing or contract documents, distances shall be computed by use of Tariff HGB 100 series (Mileage Guide).
2. If the shipper or any party with an interest in the shipment requests transportation of the shipment over a particular route longer than the shortest route, the mileage over the longer route will be used.
3. If operation over the shortest or specified route is not feasible because of operating hazards, load limitations of the highway or bridges, underpasses or other highway limitations, the mileage computed over the actual route of movement of the shipment will apply.
4. When shipments move under special permits, as required by or obtained from a municipal, state, or federal regulatory body or commission, which specify the route to be traveled, the mileage to be used will be the mileage via the route specified in the special permit.

**Item 555 Part Lots of Shipments Held at Ports of Import by Custom House Authorities**

1. A part of a shipment held out by the United States government authorities at port of import for appraisalment or other action by them, when forwarded, will be billed as a part lot of the original shipment and full reference to the original billing shall be shown on the part lot billing.
2. Such freight will be rated as a part of the original shipment and not as a separate LTL shipment. The rate on this part of the shipment does not include pickup service provided for in Item 750.
3. If such part lot shipment is brought to Carrier's dock by another carrier, the actual cost of such movement, if paid by Carrier, will be added to the freight bill. If such part lot shipment is picked up by Carrier, the following charge will be assessed in addition to the line haul charge:

\$5.20 per CWT  
\$30.00 minimum charge per shipment

**Item 556 Pickup or Delivery – Port**

1. Shipments picked up at or delivered to U.S. ports will be subject to the following additional pickup or delivery charge:  
\$16.00 per CWT  
\$110.00 minimum charge per shipment
2. \$250.00 for each chassis obtained
3. When Carrier is requested to pick-up an LTL shipment at a port location and dispatches a vehicle for that purpose and, due to no fault or negligence on the Carrier's part, pickup cannot be completed or the shipment is not available for pickup, the following charge will be assessed against the party requesting the pickup or the payer of the freight charges:  
\$155.00 per vehicle dispatched

Note: Rates and charges do not include tollage, usage fees, loading, unloading charges, or any other port terminal charges at piers, wharves, dockside terminals, or warehouses. Such charges will accrue and are due from consignor, consignee, or payer of the freight charges.

**Item 560 Extra Labor**

1. When consignor or consignee requests extra labor be furnished for loading, unloading, blocking, or bracing, during regular Business Hours and Business Days, and labor is available, the following charges shall apply:  
\$155.00 per labor hour or a fraction thereof,  
\$620.00 minimum charge per person per day
2. The Extra Labor charges shall be in addition to all other freight charges and shall be assessed against the party requesting the service.
3. Time will be computed by Carrier from the time the extra labor arrives at the place of pickup or delivery until loading or unloading is completed.

Note: The provisions of this Item are not applicable on Saturdays, Sundays, Holidays or Non-Business Hours, (See Item 754).

1. Carrier may accept shipments of hazardous materials or hazardous substances subject to Carrier's restrictions noted in Item 780 and all requirements of the U.S. Department of Transportation and the Environmental Protection Agency governing transportation of such commodities. Shipper shall comply with all governmental requirements including but not limited to any special labeling, packaging requirements and bills of lading descriptions.
2. Carrier reserves the right to refuse any goods which, in its sole and unlimited discretion, are considered to be dangerous, hazardous, inflammable or otherwise likely to injure any equipment or other property, and/or which Carrier believes cannot be safely loaded, stowed, secured, unloaded and delivered.
3. The shipper and customer shall be jointly and severally liable for, and shall indemnify and hold Carrier harmless from and against any loss, damage, expenses, liability, suit, fine, and/or penalty, including legal fees and costs, resulting from or relating to its failure to comply with its responsibilities under this tariff or existing hazardous material laws and regulations, including property damage, bodily injury, illness, and environmental matters such as response, clean-up, mitigation, remediation, alleviation, removal, and restoration.
4. When tendered by the shipper and accepted by Carrier, such shipments shall also be subject to the following provisions:
  - a. Any shipment containing commodities that are classified as hazardous by the Department of Transportation as published in the Code of Federal Regulations (CFR), Title 49 is subject to the following additional fee:  
     \$55.00 per shipment
  - b. If Carrier must purchase special permits for transportation movement, Carrier will purchase such permits and collect the purchase price plus the following service fee:  
     \$55.00 per permit
  - c. In addition to the per shipment charge, if Carrier must move the shipment over a circuitous route due to local, state, or federal highway restrictions, Carrier will prepare a designated route plan over the most practical and approved route for movement of such commodities. If the total distance from the initial origin to the final destination via the designated route of movement exceeds 115% of the mileage over the normal route of movement, all distance in excess of 115% will be charged for at the rate of \$17.75 per mile.

- Note 1 All charges under this Item will be collected from the party responsible for payment of the line haul freight charges.
- Note 2 Neither shipments of hazardous waste (defined by CFR 49 § 171.3) nor shipments of radioactive materials (except in limited quantities of class 7 materials described under CFR 49 § 173.422 and 173.424) will be accepted for transportation.
- Note 3 Carrier guaranteed service programs are not applicable in connection with shipments of hazardous materials unless specifically pre-approved by Carrier before tendering of the shipment.
- Note 4 Hazardous material shipments must be tendered on TForce Freight bill of lading or the Uniform Straight Bill of Lading as shown in NMFC. Any bill of lading notation limiting full access to a vehicle or any delays caused by a regulatory agency (or any party to the transportation), will be subject to exclusive use of vehicle and/or storage charges found in Items 470 and 910 herein.
- Note 5 If the shipment is refused by the consignee or, for any other reason not the fault of Carrier, cannot be delivered to the consignee, Carrier will provide notice to the shipper that the freight is undelivered and subject to storage charges. If, within 10 days of such notice, shipper does not provide written disposition instructions to Carrier, Carrier, at its sole and unlimited discretion, shall be entitled to dispose of the shipment. Shipper shall be responsible for all disposal costs and for all storage charges up to the time of disposal or other disposition of the shipment.

**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

3. The charges provided in this Item, will be in addition to all other lawful charges and unless the bill of lading is specifically endorsed to show prepayment of these charges, they will be collected from the party requesting such service, except such charge for shipments moving on Government Bills of Lading will be collected from the U.S. Government. When shipments are accorded split pickup, split delivery or stopped in transit for partial loading or unloading, the minimum and maximum charges will apply to each stop separately wherever the service is performed.
4. When inside pickup or delivery service is requested on an Expedited shipment (see Item 822); each shipment shall be subject to the following charge:

\$250.00

**Item 570          Impractical Operations**

Pickup or delivery service may not be completed or attempted by Carrier or its Agents or sub-contractors where any federal, state or municipal authorities have determined that operations are unsafe or Carrier, in its sole and unlimited discretion determines that its operations cannot be reasonably performed under or within normal business practices, due to reasons, including but not limited to:

1. The conditions of roads, driveways, alleys or approaches thereto
2. Inadequate loading or unloading facilities
3. Riots, acts of God, the public enemy, acts of terrorism, the authority of law (including customs inspections), the existence of violence, or such possible disturbances as tending to create reasonable apprehension of danger to persons or property, industry disruptions, fires, strikes, or labor disputes (including those of third parties), disruption in communication, an information systems failure, inclement weather.
4. Use of a ferryboat is necessitated.

**Item 575          Minimum Charge – Cubic Capacity and Density**

1. The provisions of this Item will apply to any shipment, or portion thereof, which is 750 cubic feet or more and has an average density of less than six (6) pounds per cubic foot (PCF). Average shipment density to be calculated using actual shipment weight.
2. The provisions of this Item are not applicable in connection with:
  - a. Rates determined by any unit measure other than by weight;
  - b. Exclusive use shipments;
  - c. Volume rates and charges per vehicle or trailer used; or
  - d. Where the otherwise applicable charge is greater than the calculation in this Item.
3. The cubic capacity of the shipment shall be determined by totaling the cubic feet of each packaged unit in the shipment, in accordance with STB NMF 100 Series, item 110, Section 8(a) and (b), except a minimum vertical dimension of eight (8) feet [(nine (9) feet when a bulkhead has been constructed in a Carrier vehicle by the shipper)] shall be used to determine the cube of the individual shipping unit(s) when top loading is precluded because of:
  - a. The nature of the article/commodity when due to the irregular shape on top (e.g., machines, etc.);
  - b. Packaging or lack of packaging used;
  - c. Palletization in "pyramided", "rounded off", or "topped off" fashion;
  - d. Specific instructions by the shipper or by notation on the bill of lading; or
  - e. Packaged units bearing instructions that the freight is not to be top loaded or double stacked.
4. The minimum charge under this Item will be based upon the calculated weight and the applicable rate. The calculated weight will be determined by multiplying the total cubic feet by six (6) pounds for each cubic foot or portion thereof. The minimum charge will then be determined as follows:
  - a. Multiply the calculated weight by the applicable class 150 rate from the customer's base rates less any applicable discount. The class 150 rate used here shall not be reduced or increased by any exception class, class tier/grouping or Freight All Kinds class rating(s) contained in the customer's pricing.
  - b. Where the customer's pricing is determined from mileage rates or where their applicable base rates do not provide a class 150 rating and rate, the minimum charge shall be determined by multiplying the calculated weight by the applicable class 150 rate from the most current UPGF 560 Series or UPGF 525 Series class rate tariff less a 60% discount.
5. For the purpose of applying this rule and charge, when two or more shipments are tendered to Carrier by the same consignor, from the same place during one calendar day for delivery to the same consignee at one place, and where remittance will be paid by the same payer, they will be considered one shipment.
6. The provisions of the NMFC, item 171 (Bumping Clause) will not apply in connection with the application of this Item.
7. Any overflow portion of a Capacity Load shipment which is charged for as a separate shipment will be subject to the provisions of this Item.
8. The provisions of this Item do not apply to shipments billed using any UPGF 580 base rate tariff.

**Section 1**

**Item 578 Pickup or Delivery – Shipper Load and Count**

When empty trailers are delivered to the shipper's location for subsequent loading at a later time by the shipper or its agent, such delivery will be identified as Shipper Load & Count ("SL&C") and will be subject to the following terms and conditions:

1. For each SL&C shipment tendered by shipper to Carrier, shipper will include "SL&C" on the bill of lading for the shipment, indicating that shipper counted and loaded the shipment without Carrier's driver present. Shipper's failure to include "SL&C" on the applicable bill of lading does not change the liability of either party if shipper did, in fact, count and load the shipment.
2. Shipper will load each SL&C shipment securely, in such a manner so as to withstand the normal rigors of transportation to Carrier's originating Service Center or intermediate handling facility. Shipper shall not load any handling unit greater than 10 linear feet without prior approval by Carrier (see Item 780 part 1A). Shipments containing an item exceeding 10 feet may be returned by Carrier, at shipper's expense and liability, to the shipping point if the configuration of the item cannot be handled with reasonable dispatch safely within Carrier's network, as determined by Carrier in its sole and unlimited discretion (see Item 670).
3. Carrier's driver will not inspect a SL&C shipment at the time of pickup.
4. Carrier's driver will sign the bill of lading for each SL&C shipment with "SL&C" instead of a piece count. All provisions of the bill of lading contract, which are consistent with this Item, will apply. The failure of Carrier's driver to include "SL&C" on the applicable bill of lading does not change the liability of either party if the shipper did, in fact, count and load the shipment.
5. Carrier will count and verify the piece count, defined as cartons, rolls, pails, or similar units of each SL&C shipment and note any exceptions - over, short, or damaged (referred to herein as "O/S/D exceptions") when the shipment is actually transferred from the original trailer picked up by Carrier (such transfer is hereinafter referred to as the "first physical handling" of the shipment).
6. Shipper will be notified of any O/S/D exception(s) or a clear delivery within one Business Day of the first physical handling of the shipment. Failure of Carrier to notify shipper of any O/S/D exceptions as provided herein does not relieve the shipper of its obligations.
7. In the event of any O/S/D exception(s), Carrier may hold the shipment and await disposition from shipper or may adjust shipper's bill of lading to reflect the overage or shortage and forward the shipment onto destination. Carrier agrees to note the O/S/D exception(s) for shipper, on the bill of lading and delivering documentation.
8. Carrier will not be liable for any O/S/D exception(s) occurring before the first physical handling of the shipment and reporting of any O/S/D exception(s) to shipper, unless there is evidence of a vehicle accident or negligence by Carrier.
9. Shipper will not utilize Carrier's equipment for any purpose other than loading under this Item.
10. Trailer detention charges (see item 501) apply beyond a reasonable time for loading and securement of the freight.
11. Shipper will accept liability for damage to Carrier's equipment while in its possession.

**Item 579 Pickup or Delivery – Consignee Unload or Drop Trailer**

When shipments are delivered to the consignee's location for subsequent unloading at a later time by consignee, such delivery will be subject to the following:

1. Upon delivery of a trailer hereunder, Carrier will present to consignee:
  - a. the trailer with its door seal intact;
  - b. a printed manifest listing all shipments contained within the trailer; and
  - c. a delivery bill for each shipment contained within the trailer.
2. Upon delivery of each trailer by Carrier hereunder, consignee must:
  - a. ensure the trailer door seal is intact and matches with the seal number printed on the manifest;
  - b. ensure a delivery bill is received for each shipment listed on the manifest; and
  - c. sign the manifest acknowledging receipt of the sealed trailer and delivery bills.
3. Upon unloading the shipments from the trailer, consignee must:
  - a. note all exceptions to the condition of the shipments (shortages, overages, and/or damages) on each individual delivery receipt for the applicable shipment;
  - b. ensure that all delivery exceptions reference product numbers or some other specific identifier of the specific freight for which an exception is being taken;
  - c. sign and date each delivery receipt, and note the condition of the shrink wrap for that shipment;
  - d. reload any overages back onto the Carrier's trailer; and  
contact Carrier to advise that the trailer and delivery receipts are available for pickup. A trailer is considered "returned" for purposes of this agreement, and calculating detention charges, only if all applicable delivery receipts have been returned with the trailer.
4. Exception Notification

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

- a. Consignee must advise Carrier of any delivery exceptions (over, short or damaged) within two Business Days of the time the trailer was delivered to consignee's location. Notification must reference the individual freight bill number and corresponding exception.
- b. Consignee's failure to report delivery exceptions within two Business Days will mean there were no delivery exceptions and all claims for which a delivery exception is not presented within such period are hereby waived.
5. Trailer Detention Charges apply beyond the free time allowed for unloading Carrier's trailer, see Item 501.
6. Consignee will not utilize Carrier's equipment for any purpose other than unloading under this Item.
7. Consignee will accept liability for damage to Carrier's equipment while in its possession.

**Item 580      Marking or Labeling Freight - Exception to NMFC item 580**

The provisions of NMFC item 580 will apply, except as follows: When the consignor or consignee requests, or when required to conform to NMFC item 580, governing publications or this tariff, to change, alter, or add marks, tags, label, or stencils on any package or piece of freight, marking or labeling charges will apply as follows:

\$8.00 per package,  
\$110.00 minimum charge per shipment

Note: When required to conform to the provisions of NMFC item 580 all charges accruing under the provisions of this Item shall be assessed against the consignor or must be guaranteed to the satisfaction of Carrier before services will be performed. When requested by the consignor or consignee all charges accruing under the provisions of this Item must be paid by the party requesting the service.

**Item 582      Grocery Warehouse Services**

1. In the event Carrier is required to perform or complete additional services as a condition of the delivery to a grocery warehouse, the payer of the freight charges shall be charged for the cost incurred by Carrier, unless payment has been guaranteed to the satisfaction of Carrier by another party, whether the bill of lading indicates the freight charges are prepaid or collect. Additional services required to be provided or resulting from these services, may include, but are not limited to, such services as Inside Delivery (see Item 566), Sort and Segregating (see Item 751) Detention with Power (see Item 500), among others.
2. Where the grocery warehouse requires the use of a service provider for specific unloading services, Carrier will be reimbursed by the payer of the freight charges for the cost of the required service charged by the provider, any resulting cost for delay incurred for detention or delivery completed after normal Business Hours, plus the following processing fee:

\$30.00 per shipment

**Item 595      Maximum Charge**

In no case shall the charge for any shipment from and to the same points, via the same route and movement, be greater than the charge for a greater quantity of the same commodity in the same shipping form and subject to the same packing provisions at the rate and weight applicable to such greater quantity of freight.

Note 1 Not applicable where different levels of service are provided.

Note 2 The provisions of this Item will not apply when the rates or charges are based on unit or pallet pricing.

**Item 596      Maximum Weights – Capacity Load or Volume Shipment**

Except as specifically provided in individual Items, Capacity Load or volume shipment provisions subject to a maximum weight restriction, will apply only to the extent total weight of the shipment does not exceed maximum weight. That portion of a shipment in excess of a stated maximum weight will be rated as a separate shipment.

**Item 610      Absolute Minimum Charge**

Unless otherwise provided, the line haul minimum charge applicable to any shipment after discount will be no lower than the following:

- \$164.00 - Shipments between Direct Service Points in the continental United States
- \$195.00 - Shipments between Direct Service Points in the continental United States and Canada (except as noted on below)
- \$295.00 - Shipments between Direct Service Points in the continental United States and Direct Service Points in the Canadian provinces of Newfoundland, Nova Scotia, Prince Edward Island, and the Yukon, Nunavut and Northwest Territories

Note: Line haul freight charges are determined by multiplying the applicable rate of each article by the actual weight of each article. Total line haul freight charges cannot be less than the applicable line haul minimum charge. The minimum charge is the published line haul minimum charge (less any applicable discount) subject to the above Absolute Minimum Charge per shipment.

**Item 615 Household Goods or Personal Effects**

Carrier may accept household goods ("HHG") only when each of the following conditions are met:

1. The shipment is picked up and delivered entirely within Carrier's network.
2. A HHG mover or broker is the requester of and debtor for the transportation services requested. A HHG mover or broker is a commercial business that is properly licensed, certified, and insured per applicable city, county, state, federal, and any other applicable law or regulation.
3. Pickup and Delivery service must occur at an HHG mover's facility or at a military installation.
4. The freight is tendered in Carrier approved containers or otherwise secured in trailer by HHG mover or broker.
5. The bill of lading must state that the articles are released to a value not to exceed 10 cents per lb. The consignee name and address on the bill of lading must match the consignee name and address on the container. Each bill of lading must show HHG mover or broker as the Third Party.
6. Carrier agrees to transport such merchandise as HHG mover or broker may tender to Carrier, excluding any prohibited items described in Item 780. The parties agree that Carrier shall have no liability whatsoever for any such prohibited items and that HHG mover or broker shall fully indemnify and hold harmless Carrier for any claims that may arise against Carrier with respect to such prohibited items.
7. All claims for loss, damage, or delay must be filed with Carrier by HHG mover or broker. All claims by HHG mover's or broker's customer for loss, damage, or delay must be filed against HHG mover or broker and any claim filed direct with Carrier by HHG mover's or broker's customer will be declined.
8. The minimum charge for an LTL shipment of household goods or personal effects as described in NMFC items 100200 through 100251 will be for 500 pounds at the applicable rate, but not less than the minimum charge published between the origin and destination in which the shipment is moving.

**Item 640 Mixed Shipments and Articles Classified by Weight or Quantity - Exception to NMFC item 640**

1. Unless otherwise provided, shipments classified by weight or quantity that consist of differently classed or unknown articles contained in or on one handling unit and which are not accurately identified on the bill of lading will be rated at the applicable class shown below based on the density of the total shipment using the weight and measurements of the total shipment.
2. Notwithstanding the applied class, any article that is subject to the released value provisions of the NMFC in effect on the date of shipment shall be considered released at the lowest release value stated therein.
3. Adjustments to the weight of the shipment will follow the rules in Item 990.

**Item 645-A Application of Density Based Rates**

Density based rates will only be available upon a written agreement executed by each of customer and Carrier. Where the customer and Carrier have established density based rates in such an agreement, the following terms and conditions shall apply:

**Part 1 – Calculating Density**

1. Calculation of the total cube of a shipment
  - a. Multiply the greatest straight-line dimensions of length, width and height (depth) in inches, including all projections and packaging, of the individual handling unit as tendered to the carrier for shipment. Divide the total by 1,728 cubic inches (one cubic foot) to determine the total cube of the handling unit in cubic feet. Add the cube of each handling unit to determine the total shipping cube.
  - b. For cylindrical / conical shipments, square the greatest dimension of the diameter of the handling unit (multiply the dimension by itself) in inches and then multiplying that result by the height or length. Divide the total by 1,728 cubic inches (one cubic foot) to determine the total cube of the handling unit in cubic feet. Add the cube of each handling unit to determine the total shipping cube.
  - c. For irregularly shaped handling units, treat the irregularly shaped unit as if it were in a regular rectangular box. Measure the length, width, and height of the handling unit from its extreme points, in inches. Multiply the measured dimensions and divide the total by 1,728 cubic inches (one cubic foot) to determine the total cube of the handling unit in cubic feet. Add the cube of each handling unit to determine the total shipping cube.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**  
**Section 1**

- d. For all customer provided information, all individual handling unit dimensions will be rounded off according to the following methodology:
    - i. Any individual measurement that includes a fractional measurement of 0.4999 inches or less will be rounded down to the nearest whole inch.
    - ii. Any individual measurement that includes a fractional measurement of 0.5000 inches or greater will be rounded up to the next whole inch.
  - e. For dimensions obtained by TForce Freight through the use of certified measurement equipment, the rounding of the dimensions will be determined by the tolerances of the measuring equipment used.
  - f. After the individual handling unit cube is calculated, each result should be rounded to a precision of four decimal places. The total shipment weight divided by the sum of the individual handling unit cube(s), as calculated above, will constitute the density for the shipment.
2. The density as calculated in (Part 1) will be rounded according to the following methodology for rating purposes only:
    - a. The calculated density will be initially rounded off to the nearest tenth (0.x).
    - b. A resulting density that includes a fractional result between 0.1 and 0.5 will be rounded up to 0.5.
    - c. A resulting density that includes a fractional result between 0.6 and 0.9 will be rounded up to the next whole integer.
  3. Where articles are unitized on lift truck pallets, platforms, racks or skids, the pallet, platform, rack or skid constitutes the shipping package, or a part thereof, and must be included in the computation of density.
  4. On a single handling unit of less than one cubic foot, it shall be rated at one cubic foot.

**Part 2 – Dimension Adjustments**

1. Carrier reserves the right to adjust dimensions to the values shown when any of the following conditions are present:
  - a. A vertical dimension (height) of 96 inches will be used in determining the cube of any handling unit on top of which other freight cannot be loaded due to any of the following conditions:
    - i. The nature of the article(s) within the handling unit;
    - ii. Packaging, or lack thereof, used within the handling unit;
    - iii. Handling units where the articles are “pyramided” or “rounded off”;
    - iv. Instructions on the bill of lading, or provided by the consignee, indicating other freight cannot be loaded on top of the handling unit;
    - v. The actual vertical dimension (height) is in excess of 60 inches.
  - b. A width of 96 inches will be used when the actual width of the handling unit exceeds 72 inches.
  - c. A width of 96 inches, a height of 96 inches and a length based on the linear feet of trailer occupied will be used when either of the following conditions are met:
    - i. Unitized shipments or non-unitized shipments that are loaded in such a manner that determining the cube of each handling unit is impractical;
    - ii. Shipments tendered in a manner such that any required transfer of the shipment is impractical.

**Part 3 – Rate Application**

1. It will be the responsibility of the shipper to list the weight of each commodity and the dimensions of each handling unit on the bill of lading or shipping instructions as provided in Part 1 above when the shipment is tendered to Carrier.
2. All rates and other charges are based upon the density calculated in Part 1 and the total weight of the shipment.
3. Total weight of the shipment will be shown on the original bill of lading when tendered to Carrier at the time of shipment.
4. Carrier reserves the right in its sole and unlimited discretion to verify the information furnished and make corrections when errors, omissions, or discrepancies are found. Where a dimension is omitted on the bill of lading, and the Carrier is unable to determine the actual measurement, one or more of the following default measurements will be utilized for the omitted dimension – Length = 120 inches, Width = 96 inches, Height = 96 inches.
5. Rates are stated in dollars and cents in lawful currency of the United States of America.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

6. Where rates are provided for articles named herein, the same rate will be applicable on parts of such articles, when so described on the bill of lading.
7. When two or more freight rates are named for the carriage of goods of the same descriptions, and the application is dependent upon the quantity of the goods shipped, the charges assessed against the smaller shipment shall not exceed those of any larger quantity.
8. A corrected bill of lading or letter of authorization to change dimensions or density will not be accepted after the shipment has been tendered for delivery.

**Part 4 – Density-to-Class Conversion**

1. In the event the “Bill To” party and the Carrier have previously agreed to a rating structure based on class, but handling unit dimensions are provided on the bill of lading in lieu of class, Carrier will convert the density of the shipment, as calculated in Part 1, to a class using Table 645, below.
2. Furthermore, the density/class relationships set forth in the conversion table presume that there are no unusual or significant stowability, handling or liability characteristics, which would call for giving those characteristics additional or different weight in determining the appropriate class.
3. Liability will be limited by Item 166, Part 2.
4. The invoice will indicate when the rates have been determined using a density-to-class conversion.

**Part 5 – Class-to-Density Conversion**

1. In the event the “Bill To” party and the Carrier have previously agreed to a rating structure based on density, but class is provided on the bill of lading in lieu of handling unit dimensions, Carrier will convert each indicated class to a density value using Table 645. The density value utilized for each class will be the lower limit of each density range shown for each class.
2. Should the bill of lading contain more than one classification, the weight of the items for each classification will be multiplied by the converted density value for each classification. The sum of these values will be divided by the total weight of the shipment to determine the average density for the shipment. The average density calculated will be rounded based on the rules outlined in Part 1 of this Item.
3. Furthermore, the density/class relationships set forth in the conversion table presume that there are no unusual or significant stowability, handling or liability characteristics, which would call for giving those characteristics additional or different weight in determining the appropriate density.
4. Liability will be limited by Item 166, Part 14.
5. The invoice will indicate when the rates have been determined using a class-to-density conversion.

Note 1 Subject to a minimum fuel adjustment charge of \$2.00 per shipment when the DOE Diesel Fuel Price Index is at least 115 cents per gallon.

Note 2 The term line haul charge referred to herein applies to all charges other than accessorial charges.

Note 3 All shipments will be subject to a fuel surcharge based on a weekly fuel price report, published on the website of the US Energy Information Administration (EIA) for the US On-Highway Diesel Fuel Price. The report may be received directly from the EIA or by calling (202) 586-6966. Any surcharge adjustments to the US On-Highway Diesel Fuel Price made on Monday will take effect the following Wednesday. If Monday falls on a federal Holiday, the index next published will be used to determine the applicable fuel surcharges. The website is [www.eia.gov/petroleum/gasdiesel](http://www.eia.gov/petroleum/gasdiesel).

Note 4 For each one-cent (\$0.01) increase over 361 cents in the DOE Diesel Fuel Price Index, the fuel surcharge will increase by an additional 0.1% on LTL shipments. For each two cent (\$0.02) decrease below 361 cents in the DOE Diesel Fuel Price Index, the fuel surcharge will decrease by 0.1%. When the DOE Diesel Fuel Price Index falls below 115 cents, the fuel surcharge will not apply.

**Item 647 Appointment and Notification of Arrival**

1. Actual tender of delivery at consignee's place constitutes the notice of the arrival of a shipment. If a shipment cannot be tendered for delivery, notice of undelivered freight will be provided under the terms of Item 345.
2. When Carrier is requested or required on the bill of lading or other shipping instructions received by Carrier to provide a notification of arrival to the consignee as a condition necessary for delivery, under any of the following situations, a service charge will be assessed:
  - a. Carrier must contact consignee for a delivery appointment, or
  - b. Carrier must make arrangements for customer pickup at Carrier's service center, or
  - c. Carrier must provide written notice concerning the arrival of a shipment.

**TFORCE FREIGHT**  
**Rules and Charges - TARIFF UPGF 102-S**

**Section 1**

3. Notification of arrival will be given to the consignee no later than the next Business Day following the arrival of the shipment at Carrier's destination service center.
  - a. The notice will normally be given by telephone or electronic form such as email.
  - b. In the case of notification by email, the notification will be considered received by the addressee at the time of transmission.
  - c. Based on instructions received, shipments not deliverable the next Business Day after notification will be subject to storage charges as outlined in Item 910.

\$65.00

Note: The service charge is not applicable when the consignee is located at a Residence (Item 753) or a location identified as having limited access (item 755).

5. Use of Email Addresses and Telephone Numbers Supplied by Shipper:

By providing to Carrier the email address or telephone number of a consignee or associated addressee for a shipment ("Shipment Contact(s)"), the shipper acknowledges and agrees that Carrier may send notifications related to the delivery of such shipment to the shipment's associated Shipment Contact(s) and may use such Shipment Contact(s) in accordance with the Privacy Notice in effect at the time of shipping, to the extent permitted by law. The Privacy Notice is published on TFI's website at <https://tfiintl.com/en/terms-of-use/>. The shipper warrants that (i) informed and specific consent, in compliance with all applicable laws, rules, and regulations (including, where applicable, of the jurisdiction of the consignee's domicile), has been secured from the individual associated with each Shipment Contact to receive notifications from Carrier related to the delivery of such shipments and for use by Carrier of the Shipment Contact(s) in accordance with the Privacy Notice in effect at the time of shipping, to the extent permitted by law and that (ii) the Shipment Contact(s) is accurate and is controlled by the consignee or associated addressee for the shipment with which it is associated. Shipper will store such consents and, upon request by Carrier, make available such consents to Carrier.

The Shipper shall defend, indemnify, and hold harmless Carrier, its parent corporation, and affiliated companies, their officers, directors, employees, agents, and their successors and assigns, from and against any and all liability, losses, damages, costs and expenses (including reasonable legal fees) of any nature whatsoever incurred or suffered in connection with damages arising out of or resulting from any breach of the warranties in the previous paragraph.

**Item 680      Packaging Requirements and Carrier Liability** -Exception to NMFC item 680

1. It is the responsibility of shipper to ensure that proper packaging is used and that contents of packages are adequately and securely packed, wrapped and cushioned for transportation. Where customer pricing is dependent on packing requirements those rates or ratings will apply only when the commodities are packed in accordance with such packing requirements. Where packing requirements are provided in tariffs governed hereby, rates or ratings provided in connection therewith will apply only when the article or articles are packed in accordance with such packing requirements. Where packing requirements are not provided in tariffs governed hereby, the packing requirements of NMFC will apply. Where packing requirements are not provided in the NMFC, the shipment will be subject to Item 640 where density rates will apply.
2. Unless otherwise provided, commodities in a shipping container (excluding commodities in containers within containers) shall be accepted by Carrier to be in compliance when filled to not less than 65% of the capacity of the container. Where the commodities are filled to less than 65% of the container's capacity, the gross weight of the container and its contents and the measurements of the container will be used to determine the density of the container. The container will be rated at the applicable class shown in Item 640, above.
3. Carrier will not be liable for, nor shall any adjustment, refund or credit of any kind be made to shipper, consignee or any third party with an interest in the shipment as a result of any loss, damage, destruction, or misdelivery (including misinformation accompanying the shipment) caused by any of the following:
  - a. Insufficient packing, securing, marking or labeling of shipment.
  - b. Damage or loss of articles packaged and sealed by shipper or a third party acting on shipper's instructions, where the seal is unbroken at the time of delivery, the shipment retains its basic integrity, and the consignee accepts the shipment without noting the damage on the delivery record.
  - c. Allegation of damages indicated solely by reliance on any instrument attached to or shipped with the commodities that measure and record vibration, temperature, impact, or other physical characteristic.
  - d. Shipper's failure to ship goods in packaging approved by Carrier prior to shipment where such prior approval is recommended or required.
  - e. Damage to general shipping containers whose outer finish might be damaged by adhesive labels, soiling or marking incidental to transportation.
  - f. For shipments of food, food-related products, medical supplies, cosmetics, toiletries, or drugs for human or animal consumption or use, shipper is responsible for ensuring that packaging is sufficient to protect such goods from damage due to prolonged exposure to sunlight, heat, cold or precipitation or co-loading with shipments of chemicals, food or other products in the normal course of LTL handling and transportation. Shipper is also responsible for ensuring packaging meets all applicable FDA requirements.

**Item 700      Permits**

When Carrier is required or requested to obtain a special permit, the payer of the freight charges will reimburse Carrier for the cost of the permit plus the following administrative fee:

\$175.00 per permit

**Item 721      Collection of Charges – Collection Fee for Nonpayment or Late Payment**

1. When credit has been extended by Carrier, all transportation charges shall be paid in full within 15 days of presentation by Carrier of the freight bill in accordance with Item 140, "Collection of Charges – Extension of Credit."
2. Payments not made within 30 days of presentation of the freight bill shall be considered delinquent. Pursuant to Title 49, Article 13707 and CFR Part 377.203, notice shall be given by Carrier that failure to pay within the authorized credit period will require Carrier, before extending credit again, to determine whether the customer will comply with the credit regulation in the future. Any party involved in the movement shall remain severally liable for transportation charges incurred, with the sole exception being the non-recourse provisions of the bill of lading contract, regardless of any agreement between them with respect to the party responsible for the freight charges incurred.
3. In the event payment is not made in accordance to the terms established with the customer and Carrier deems it necessary to retain the services of a collections agency and/or legal counsel to collect any outstanding indebtedness, the customer will be responsible for payment of all costs of collection, including reasonable administrative costs, collection agency fees and attorney's fees. In addition a service charge of 1.5% per month (or fraction thereof) will be assessed and due on the unpaid balance, beginning at the time the receivable is placed with the collections agency and/or legal counsel and will end when payment of the amounts due hereunder have been received by Carrier or its agents.
4. All action or proceedings initiated by Carrier for the collection of freight charges owed by the shipper, customer, consignee, or Third Party involved in the movement shall be brought in the federal or state court with appropriate jurisdiction over the subject matter established or sitting in that state. The parties will not raise, and hereby waive, any defenses based on the venue, inconvenience of forum, lack of personal jurisdiction, sufficiency of service, of process or the like in any cause of action or suit brought in the sitting State.
5. Carrier may provide trade credit information on its customers to commercial reporting agencies.

**Item 765 Precedence of Rates - Exception to NMFC item 765**

The provisions of Item 765 of the NMFC will apply, with the following additions:

1. Unless otherwise provided, when Pricing Provisions are published in this tariff or in any other tariffs published by Carrier, such Pricing Provisions will be applied in the following order of precedence:
  - a. For prepaid Shipments:
    - 1) Pricing Provisions published for the account of the shipper will take precedence over all other Pricing Provisions
    - 2) For purposes of applying this Item, if the shipper and the bill-to party are affiliated, the shipment will be considered prepaid. If the consignee and the bill-to party are affiliated, the shipment will be considered collect regardless of how the shipment is identified on the bill of lading.
  - b. For collect Shipments:
    - 1) Inbound collect Pricing Provisions published for the account of the consignee will take precedence over all other Pricing Provisions.
    - 2) If there is no inbound collect Pricing Provisions published for the account of the consignee, the outbound collect Pricing Provisions published for the account of the shipper will apply, unless the shipper’s Pricing Provisions do not apply on outbound collect shipments.
  - c. For Third Party shipments (applies when the bill of lading indicates a party other than the shipper, consignee or the shipper or consignee freight payment processor as the payer of the freight charges):
    - 1) Pricing Provisions published for the account of the Third Party (“Third Party Pricing Provisions”) will take precedence over all other pricing provisions.
    - 2) Third Party Pricing Provisions will apply only when the Third Party is neither the shipper nor the consignee.
    - 3) All Third Party shipments must be prepaid.
    - 4) When the bill of lading shows freight terms as prepaid with instructions for Third Party billing and the Third Party is the same as the consignee or the consignee’s freight payment processor, the terms will be changed to collect with billing to the consignee or the consignee’s freight payment processor.
2. Where no specific account or general application pricing applies, shipments handled by Carrier will be class rated in accordance with UPGF 560 series or UPGF 525 series base rate tariffs.

**Section 1**

3. Pricing established for a specific level of service (such as Guaranteed, Trade Show, Expedited, volume / Spot) will take precedence over the otherwise applicable pricing.

**Item 769          Prepayment or Guarantee of Charges**

1. A prepaid shipment is one on which the charges are to be paid by the shipper.
2. A collect shipment is one on which the charges are to be paid by the consignee.
3. A shipment on which charges are to be paid by a party (does not include paying agents) other than the shipper or consignee will be accepted provided that the shipper has established credit with Carrier and guarantees to pay all lawful charges if the third party fails to do so. Third party shipments will not be accepted if the shipper executes Section 7 of the bill of lading. If the shipper executes Section 7 and the shipment is inadvertently accepted, the shipper will remain liable for the freight charges and Section 7 of the bill of lading terms and conditions will not apply.
4. If in the judgment of Carrier the forced sale of the goods would not realize the total charges due at destination, the shipment must be prepaid.
5. Unless otherwise agreed to by Carrier, freight charges must be prepaid on all shipments consigned to or in care of seasonal amusement parks, trade shows, traveling shows, fairs or exhibitions, or other non-permanent activities of a similar nature.
6. All freight and accessorial charges on shipments consigned to federal, state, county, or local governmental bodies or agencies, including schools, must be prepaid or guaranteed. Except as shown in paragraph 8, shipments moving on commercial bills of lading from commercial shippers to U.S. government installations must be prepaid.
7. In the event that Carrier inadvertently accepts a collect shipment from a commercial shipper to a U.S. government installation, the shipper will be responsible for all freight and accessorial charges. If a commercial shipper indicates on a commercial bill of lading that freight charges are to be reimbursed by the government, the shipment is prepaid. The shipper must pay Carrier, and request reimbursement from the U.S. government.
8. Shipments moving on commercial bills of lading to Exchange facilities at Army, Air Force, Navy or Marine Corps installations may be accepted collect and invoiced to those Exchange consignees. Commercial bills of lading that have been endorsed "To be converted to a government bill of lading at destination" may also be accepted on a collect basis.
9. All freight charges on shipments for export (other than to points in Canada) must be prepaid.
10. Regardless of any payment terms given to Carrier, the shipper is ultimately liable for, will be billed for, and agrees to pay all lawful charges and fees necessary for shipment delivery if the consignee fails or refuses to pay. The provisions of this paragraph are not applicable on consignee collect shipments where the shipper executes Section 7 of the bill of lading.
11. Under no circumstances will Carrier accept currency or coin as a method of payment. Drivers of Carrier, its Agents or subcontractors are not authorized to collect cash from the consignee, shipper, or a Third Party as payment for the freight charges.

1. Carrier originates the shipment and the freight charges are prepaid; or
2. Carrier is the delivering carrier and the freight charges are collect.

Discounts established for the shipper, consignee or Third Party do not imply Carrier billing and invoicing.

2. Disputes between Carrier and Claimants in any administrative and/or judicial proceedings shall be governed by federal laws, regulations, and preemption. In the event that any terms or conditions herein, or otherwise, are deemed by a court to require interpretation or application which is not otherwise provided under federal statutes, regulations, preemption, and/or common law, then the controlling law will be the substantive law of the state in which the shipment at issue was tendered to Carrier.

A civil action for overcharges must be brought no later than 18 months after the claim accrues.

If a customer has past due bills, it will be notified that the payment will be applied to the oldest open freight bills. The same process will apply to duplicate payments. 3. Carrier reserves the right to subcontract all or any portion of the transportation services to meet the obligations set forth under the Expedited contract.
4. Expedited pricing, as set forth in the contract, shall supersede all other pricing programs (including other contractual agreements) existing between the parties.

Expedited rates received via Carrier's website are not valid on same day service, when special equipment is needed (i.e. liftgate) and/or when item(s) in the shipment exceed 15 feet in length.
8. Unless indicated in the contract, the rates and charges for Expedited are NOT subject to any discounts or reductions.

In the event said bill of lading or receipt refers to or incorporates classifications or tariffs or contains other terms and conditions which are in addition to or conflict with the contract and/or this tariff provision, such additional or conflicting terms and conditions shall have no force or effect and the contract, together with this tariff provision, will govern.

12. Customer agrees to defend, indemnify and hold Carrier and its employees, contractors, and Agents harmless from and against any and all claims, liabilities, losses, damages, fines, penalties, payments, costs, and expenses (including, without limitation, reasonable legal fees) caused by or arising out of the mischaracterization or wrong description of an Expedited shipment applied to the bill of lading covering a shipment.
13. Freight charges will not be subject to cancellation and Carrier will not be liable for its failure to deliver by the delivery date, or if applicable, time indicated in the contract resulting from events beyond Carrier's control, including, but not limited to Impractical Operations (as defined in Item 570), acts or omissions of customer, shipper, consignee or Owner of goods, or any person or entity other than Carrier or its Agents.

17. In the event of failure by Carrier to have the shipment available for delivery by the delivery time/date indicated in the contract due to no fault of customer, Shipper or Consignee, then the freight charges, including the fuel surcharge (but with the exception of any applicable and performed accessorial service charges) for that shipment may be cancelled, provided the payer requests cancellation or refund of any paid freight charges by contacting LTL Expedited at (800) 644-0900 within 15 calendar days of actual delivery date. **Section 2 - Mexico**

Note 1 Subject to a minimum fuel adjustment charge of \$2.00 per shipment when the EIA Diesel Fuel Price Index is at least 115 cents per gallon.

Note 2 The term "line haul charges" referred to herein applies to all charges other than accessorial charges.

Note 3 For the purposes of the volume or capacity load fuel surcharge application, volume or capacity load shipments are defined as:

- a. Shipments rated per vehicle, per van, or per container;
- b. Shipments that weigh or are rated at weights of 20,000 lbs. or more;
- c. Shipments considered a capacity load or moving under exclusive use rates.

Note 4 All shipments will be subject to a fuel surcharge based on a weekly fuel price report, published on the website of the US Energy Information Administration (EIA) for the US On-Highway Diesel Fuel Price. The report may be received directly from the EIA or by calling (202) 586-6966. Any surcharge adjustments to the US On-Highway Diesel Fuel Price made on Monday will take effect the following Wednesday. If Monday falls on a federal Holiday, the index next published will be used to determine the applicable fuel surcharges. The website is [www.eia.gov/petroleum/gasdiesel](http://www.eia.gov/petroleum/gasdiesel).

Note 5 For each one-cent (\$.01) increase over 361 cents in the EIA Diesel Fuel Price, the fuel surcharge will increase by an additional 0.1% on LTL, volume or Capacity Load shipments. For each two-cent (\$.02) decrease below 361 cents in the EIA Diesel Fuel Price, the fuel surcharge will decrease by 0.1%. When the EIA Diesel Fuel Price falls below 115 cents, the fuel surcharge will not apply.
